New Mexico Public Education Department
University of New Mexico Prevention Research Center
ACKNOWLEDGEMENTS

The production of this report was made possible by collaboration between the New Mexico Department of Health (NMDOH), and the New Mexico Public Education Department (NMPED), with technical support from the University of New Mexico Prevention Research Center (UNM PRC) and the Division of Adolescent and School Health, Centers for Disease Control and Prevention (CDC-DASH). Gratitude is extended to the individuals listed below for their contribution toward developing and producing this report.

New Mexico Public Education Department
Susanna M. Murphy, Ph.D., Secretary of Education
Sheila Hyde, Ph.D., Deputy Secretary, Learning and Accountability
Kristine M. Meurer, Ph.D., Acting Assistant Secretary, Student Success Division *
William O. Blair, Ph.D., Assistant Director, School and Family Support Bureau *
Dean Hopper, M.A.Ed., Assistant Director, School and Family Support Bureau
Lonnie Barraza, M.S.Ed, HIV Program Administrator *

New Mexico Department of Health
Alfredo Vigil, MD, Secretary
C. Mack Sewell, DrPH, MS, State Epidemiologist
Michael Landen, MD, MPH, Deputy State Epidemiologist *
Dan Green, MPH, Social Indicator Epidemiologist *
James Padilla, MS, Epidemiologist *
James Farmer, MPH, Health Services Manager, Office of School and Adolescent Health *
Mary M. Ramos, MD, School Health Officer *

Introduction

This report contains county level results from the 2009 New Mexico High School Youth Risk and Resiliency Survey (YRRS), a statewide survey of public school students, grades 9-12. Statewide and county level results will be available at www.YouthRisk.org and www.health.state.nm.us/ERD/HealthData/yrrs.shtml. Together, these documents comprise a useful tool for those working on youth-related issues at the state and local level.

The YRRS is organized into two major content areas: risk behaviors and protective (resiliency) factors. Risk behaviors include behaviors associated with unintentional injury, violence, sadness and suicidal ideation, tobacco use, alcohol use, drug use, sexual activity, physical activity, and nutrition. Protective or resiliency factors are measures of the positive and supportive relationships, experiences, activities, resources and values that encourage healthy youth development. Resiliency factors and related traits include caring and supportive relationships in the family, school, community and with peers; boundaries set by the family and school; positive peer support; meaningful participation and constructive use of time in school and outside of school; and others (Appendix B).

Additionally, this report includes a section on academic measures and traits. These academic measures include getting good grades (mostly A's and B's), trying hard to do good work in school, planning to go to college, skipping or ditching school, coming to class with paper and something to write with, and completing homework.

How to Read this Report
This report has three main sections, each of which consists of a set of bar and line charts. The first section presents the results of the major risk behaviors examined in the survey. Each category of risk behavior is presented with several data charts. At the beginning of each topic area, a set of line charts gives results for multiple survey years of the YRRS (2003, 2005, 2007, and 2009). A following set of bar charts compares results for the county to results for the entire state, compares the behaviors of boys to those of girls, and makes comparisons between grade levels within the county.

The second section presents results for the academic measures and behaviors. As with the risk behaviors, there are line and bar charts presenting trends, a comparison between the state and the county, a comparison between boys and girls in the county, and a comparison of grade levels within the county. Using the same styles of charts, the third section of the report presents results for the resiliency/protective factors.

In some cases when there were very few students in a particular age or gender group, data have been suppressed to protect the anonymity of the individual respondents.

NOTE: County level YRRS reports are freely available. School district reports have been distributed to school district offices. School districts are encouraged to reproduce and share these reports with community groups concerned with prevention and health promotion. However, school district level results will not be released without express permission of the school district superintendent. Forms for requesting school district data are available at www.YouthRisk.org.
Understanding the Charts - and A Word about Error Bars

The bar charts in this report present the percentage of students who reported engaging in any given risk behavior or who reported having any given protective factor. The height of the bars conveys the percentage of students reporting each trait, and provides a quick visual comparison between different groups of students reporting that trait. A label for each bar presents the actual percentage of students who reported each trait. For instance, the chart on page 14, Personal Safety: Injury, shows that 8.3% of students in New Mexico rarely or never wore seatbelts, while 6.4% of students in Luna County rarely or never wore seatbelts.

Because of the high cost and logistical complications involved in conducting a statewide survey, the YRRS was administered to a sample of students, rather than to every single student in each school district. Because YRRS data are from a sample of students, and not the entire student body, the results in this report are estimates. As with all estimates, there is some uncertainty associated with each of these estimates. On the charts in this report, this degree of uncertainty is represented by an error bar (or confidence interval). The error bar is the thin 'I' shaped line that extends above and below the end of each bar in a chart. One of the major influences on the size of the confidence interval or error bar is the number of participants in the survey. In general, this means that with more students participating in the survey, there will be a higher degree of confidence in the results (i.e., error bars will be smaller).

The proper interpretation of an error bar can be illustrated by looking at the chart below. This chart compares the New Mexico prevalence of smoking and cocaine use to the United States prevalence for 2005, a previous survey year. The chart shows that the prevalence of current smoking was 25.7% in New Mexico and 23.0% in the United States. The error bar for the estimate of current smoking among New Mexico students extends approximately 4 percentage points in either direction, from 22.0% to 29.8%. This means that we are confident that the actual percentage of smokers in this group of students was between 22.0% and 29.8%. The error bar for the estimate current smoking in the US extends approximately 2.5 percentage points in either direction, from 20.7 to 25.3%. We are confident that the actual percentage of smokers among this group was between 20.7% and 25.3%.

Current Smoking and Current Cocaine Use

<td>23.0</td>
</tr>
</tbody>
</table>
How does knowing the upper and lower limits of our error bars help us? While it appears at first glance that New Mexico has a higher prevalence of smoking than the United States (25.7% vs. 23.0%), a closer look at the error bars shows a more complicated picture. The error bars for the New Mexico estimate (22.0% - 29.8%) and the US estimate (20.7% - 25.3%) overlap. Because of this overlap, we do not have a high degree of confidence that the prevalence of smoking in New Mexico is actually different from the prevalence in the United States. In other words, the difference between the prevalence of smoking in New Mexico and the United States is not statistically significant.

For cocaine use it also appears that in 2005, New Mexico had a higher prevalence than the United States (7.9% vs. 3.4%). The error bar for New Mexico extends from 6.6% to 9.5%, and the error bar for the United States extends from 2.8% to 4.4%. Because the higher bound of the US error bar (4.4%) is lower than the lower bound of the NM error bar (6.6%), these error bars do not overlap. For cocaine use, we are confident in saying that the New Mexico prevalence was higher than the US prevalence. In other words, the difference between the 2005 prevalence of cocaine use in New Mexico and the United States was a statistically significant difference.

For some small counties, error bars have been removed from this report. With small populations, the number of students sampled can approach the total student population. In these cases, error bars would have limited meaning because with a high percentage of students surveyed, there is less uncertainty around the estimates than error bars suggest.

Current Smoking and Current Cocaine Use
Grades 9 - 12, 2005

Error bars DO overlap
No statistically significant difference.

Methodology

The YRRS was implemented in the fall semester of the 2009-10 school year. All public school districts in New Mexico were invited to participate in the 2009 High School YRRS. Of 89 districts statewide, 76 districts participated. From each participating school district, schools with students from 9th to 12th grades were selected to participate.* The probability of selection of each school was proportional to the size of its 9th-12th grade population. In large school districts only some of the schools were selected to participate, while in small districts, all schools were selected. Classrooms were systematically selected from each school, and all students in each selected classroom were asked to participate.

In each participating school, a single day was arranged on which to administer the survey. Questionnaire forms and pencils were distributed to each student in participating classes, and students were asked to fill out the questionnaires independently of other students and without teacher assistance.

Questionnaires were electronically scanned, and data were analyzed using STATA 10.1, a statistical software program.

Limitations of the YRRS

All information from the YRRS was self-reported by the participating students. While most questions on the YRRS come from nationally validated surveys, and data quality has been demonstrated to be very high in national surveys, there is no way to guarantee the truthfulness of the participants in any survey that relies on self-reporting.

A good response rate is one of the most important goals in conducting a survey. At the school district level, a response rate is the percentage of all students selected for the survey who complete and return a useable questionnaire form. At the state level, the response rate incorporates the participation of school districts and schools as well as the participation of students. An adequate response rate means that survey results are more likely to represent the actual student population. The statewide response rate for the 2009 High School YRRS was 67%, an adequate response rate to represent the population.

In order to achieve a statewide response rate of 60% or greater, we aimed for a 75% response rate from each participating school district. Most participating school districts and counties met this target or were close to it. While the response rate was generally very good in participating schools, the overall response rate was driven down by the school districts that declined to participate.

* The Middle School YRRS was also conducted at the same time; results from that survey are published separately.
Participation in Luna County

The response rate for Luna County was 68%.

A high response rate produces survey results that are more representative of the student population. A response rate of at least 60% allows generalization of results to the entire student body. A response rate of 75% is excellent and allows a high degree of confidence in results. Because a high response rate means that more students have been surveyed, a high response rate will also be reflected in the error bars (i.e., with a higher response rate and more students included in the survey, error bars will be smaller and confidence intervals will be narrower). Response rates below 60% are considered low, and caution should be exercised in interpreting results. Low response rates indicate that the data may represent only students who participated in the survey and not necessarily the entire student body.

   G. 10 or 11 times  0.0  
   H. 12 or more times  0.8  (0.1 - 5.4)  

20. During the past 12 months, did your boyfriend or girlfriend ever hit, slap, or physically hurt you on purpose?  
   A. Yes  11.3  (6.4 - 19.1)  
   B. No  88.7  (80.9 - 93.6)  

21. Have you ever been physically forced to have sexual intercourse when you did not want to?  
   A. Yes  8.8  (3.9 - 18.6)  
   B. No  91.2  (81.4 - 96.1)  

The next question asks about bullying. Bullying is when 1 or more students tease, threaten, spread rumors about, hit, shove, or hurt another student over and over again. It is not bullying when 2 students of about the same strength or power argue or fight or tease each other in a friendly way.  

22. During the past 12 months, have you ever been bullied on school property?  
   A. Yes  13.6  (9.8 - 18.6)  
   B. No  86.4  (81.4 - 90.2)  

218
Sadness and Attempted Suicide

The next 5 questions ask about sad feelings and attempted suicide. Sometimes people feel so depressed about the future that they may consider attempting suicide; that is, taking some action to end their own lives.

Marijuana Use
The next 5 questions ask about marijuana use. Marijuana also is called grass or pot.

51. How old were you when you tried marijuana for the first time?
   - A. I have never tried marijuana: 58.0% (53.2 - 62.7)
   - B. 8 years old or younger: 3.0% (1.2 - 7.7)
   - C. 9 or 10 years old: 3.8% (1.2 - 11.6)
   - D. 11 or 12 years old: 5.0% (2.1 - 11.7)
   - E. 13 or 14 years old: 12.4% (6.4 - 22.7)
   - F. 15 or 16 years old: 15.2% (9.9 - 22.6)
   - G. 17 years old or older: 2.5% (0.4 - 15.7)

52. During the past 30 days, how many times did you use marijuana?
   - A. 0 times: 83.0% (77.0 - 87.7)
   - B. 1 or 2 times: 4.9% (1.7 - 13.3)
   - C. 3 to 9 times: 3.4% (1.4 - 7.8)
   - D. 10 to 19 times: 1.6% (0.4 - 6.2)
   - E. 20 to 39 times: 3.0% (1.5 - 6.0)
   - F. 40 or more times: 4.1% (1.6 - 10.3)

53. During the past 30 days, how many times did you use marijuana on school property?
   - A. 0 times: 96.3% (91.7 - 98.4)
   - B. 1 or 2 times: 2.1% (0.4 - 9.3)
   - C. 3 to 9 times: 0.6% (0.1 - 4.1)
   - D. 10 to 19 times: 0.0%
   - E. 20 to 39 times: 0.0%
   - F. 40 or more times: 1.0% (0.2 - 6.3)

54. How wrong do your parents feel it would be for you to use marijuana?
   - A. Very wrong: 87.0% (79.8 - 91.9)
   - B. Wrong: 6.9% (3.2 - 14.2)
   - C. A little bit wrong: 4.2% (1.9 - 8.9)
   - D. Not wrong at all: 1.9% (0.5 - 7.0)

55. How much do you think people risk harming themselves (physically or in other ways) if they smoke marijuana regularly?
   - A. No risk: 20.7% (16.2 - 26.0)
   - B. Slight risk: 17.7% (11.2 - 26.9)
   - C. Moderate risk: 28.4% (23.4 - 33.9)
   - D. Great risk: 33.2% (25.0 - 42.5)
Other Drugs
The next 12 questions ask about other drugs.

56. During your life, how many times have you used any form of cocaine, including powder, crack, or freebase?

<table>

</tbody>
</table>
66. During your life, how many times have you used a needle to inject any illegal drug into your body?  
A. 0 times                     96.0 (90.9 - 98.3)  
B. 1 time                      0.8 (0.1 - 5.5)  
C. 2 or more times             3.2 (1.6 - 6.2)  

67. During the past 12 months, has anyone offered, sold, or given you an illegal drug on school property?  
A. Yes                        25.7 (19.5 - 33.2)  
B. No                         74.3 (66.8 - 80.5)  

Obtaining Drugs and Alcohol

If you wanted to, how hard or easy would each of the following be to get?  
68. Beer, wine, or hard liquor (for example, vodka, whiskey, or gin)?  
A. Very hard                  18.8 (12.1 - 28.1)  
B. Sort of hard               12.7 (9.5 - 16.7)  
C. Sort of easy               31.6 (22.1 - 43.0)  
D. Very easy                  36.9 (24.8 - 50.9)  

69. Marijuana?  
A. Very hard                  25.3 (17.1 - 35.8)  
B. Sort of hard               13.8 (7.7 - 23.6)  
C. Sort of easy               23.1 (15.3 - 33.5)  
D. Very easy                  37.7 (30.2 - 46.0)  

70. Cocaine, LSD, methamphetamines, or other illegal drug?  
A. Very hard                  53.6 (42.8 - 64.0)  
B. Sort of hard               21.2 (12.0 - 34.5)  
C. Sort of easy               16.1 (8.9 - 27.3)  
D. Very easy                  9.1 (5.1 - 15.9)  

71. How many adults have you known personally who, in the past year, have used marijuana, cocaine, or other drugs?  
A. 0 adults                   42.1 (31.3 - 53.7)  
B. 1 adult                    15.2 (10.0 - 22.4)  
C. 2 adults                   8.0 (4.4 - 14.0)  
D. 3 or 4 adults              11.2 (6.6 - 18.3)  
E. 5 or more adults           23.5 (16.7 - 32.1)  

72. How many adults have you known personally who, in the past year, have sold or dealt drugs?  
A. 0 adults                   57.0 (42.8 - 70.2)  
B. 1 adult                    13.3 (8.2 - 20.8)  
C. 2 adults                   6.4 (3.0 - 12.9)  
D. 3 or 4 adults              8.8 (4.6 - 16.0)  
E. 5 or more adults           14.5 (7.5 - 26.3)
## Appendix A: Questionnaire

### Sexual Behavior

The next 6 questions ask about sexual behavior.

#### 73. How old were you when you had sexual intercourse for the first time?

<table>
<thead>
<tr>
<th>Option</th>
<th>%</th>
<th>(95% CI)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. I have never had sexual intercourse</td>
<td>46.7</td>
<td>(37.2 - 56.5)</td>
</tr>
<tr>
<td>B. 11 years old or younger</td>
<td>7.6</td>
<td>(3.3 - 16.6)</td>
</tr>
<tr>
<td>C. 12 years old</td>
<td>2.2</td>
<td>(0.6 - 7.2)</td>
</tr>
<tr>
<td>D. 13 years old</td>
<td>8.6</td>
<td>(4.9 - 14.7)</td>
</tr>
<tr>
<td>E. 14 years old</td>
<td>15.7</td>
<td>(8.9 - 26.2)</td>
</tr>
<tr>
<td>F. 15 years old</td>
<td>9.2</td>
<td>(4.7 - 17.2)</td>
</tr>
<tr>
<td>G. 16 years old</td>
<td>9.2</td>
<td>(4.5 - 17.9)</td>
</tr>
<tr>
<td>H. 17 years old or older</td>
<td>0.8</td>
<td>(0.1 - 5.5)</td>
</tr>
</tbody>
</table>

#### 74. During your life, with how many people have you had sexual intercourse?

<table>
<thead>
<tr>
<th>Option</th>
<th>%</th>
<th>(95% CI)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. I have never had sexual intercourse</td>

</tbody>
</table>
Appendix A: Questionnaire

78. The last time you had sexual intercourse, what one method did you or your partner use to prevent pregnancy? (Select only one response.)
   - A. I have never had sexual intercourse 49.4 % (95% CI: 38.8 - 60.1)
   - B. No method was used to prevent pregnancy 11.9 % (5.9 - 22.5)
   - C. Birth control pills 4.0 % (2.0 - 7.9)
   - D. Condoms 29.9 % (20.7 - 41.1)
   - E. Depo-Provera (injectable birth control) 2.4 % (0.9 - 6.4)
   - F. Withdrawal 0.7 % (0.1 - 4.6)
   - G. Some other method 1.6 % (0.3 - 9.7)
   - H. Not sure 0.0 %

Resiliency Factors
The next questions ask about your family, your school, other adults, your friends, and yourself.
In my home, there is a parent or some other adult...

79. ...who is interested in my school work.
   - A. Not true at all 8.8 % (6.1 - 12.7)
   - B. A little true 16.4 % (10.3 - 25.0)
   - C. Pretty much true 18.8 % (14.1 - 24.6)
   - D. Very much true 56.0 % (49.7 - 62.1)

80. ...who talks with me about my problems.
   - A. Not true at all 19.9 % (14.1 - 27.4)
   - B. A little true 20.7 % (12.0 - 33.3)
   - C. Pretty much true 23.5 % (18.7 - 29.2)
   - D. Very much true 35.8 % (28.1 - 44.4)

81. ...who listens to me when I have something to say.
   - A. Not true at all 16.5 % (11.5 - 23.0)
   - B. A little true 17.7 % (10.4 - 28.5)
   - C. Pretty much true 26.7 % (22.0 - 31.9)
   - D. Very much true 39.2 % (31.8 - 47.1)

82. ...who expects me to follow the rules.
   - A. Not true at all 5.1 % (2.4 - 10.5)
   - B. A little true 7.2 % (3.1 - 15.9)
   - C. Pretty much true 24.4 % (19.3 - 30.3)
   - D. Very much true 63.3 % (53.7 - 72.0)

83. ...who believes that I will be a success.
   - A. Not true at all 9.4 % (5.3 - 16.2)
   - B. A little true 14.1 % (8.5 - 22.4)
   - C. Pretty much true 18.2 % (12.6 - 25.4)
   - D. Very much true 58.3 % (47.9 - 68.1)

Appendix A: Questionnaire

106. I often do things without thinking about what will happen.
   A. Not true at all 15.7 (11.4 - 21.2)
   B. A little true 45.9 (33.1 - 59.3)
   C. Pretty much true 16.9 (9.6 - 27.9)
   D. Very much true 21.5 (12.9 - 33.6)

107. My friends get into a lot of trouble.
   A. Not true at all 37.3 (28.1 - 47.5)
   B. A little true 37.1 (30.2 - 44.5)
   C. Pretty much true 16.2 (9.2 - 26.8)
   D. Very much true 9.5 (4.5 - 18.9)

108. My friends do well in school.
   A. Not true at all 7.9 (3.2 - 17.9)
   B. A little true 25.8 (13.5 - 43.5)
   C. Pretty much true 39.0 (27.2 - 52.3)
   D. Very much true 27.3 (16.9 - 41.0)

Among the people you consider to be your closest friends, how many would you say do the following?

109. Drink alcohol once a week or more?
   A. None 42.1 (33.4 - 51.3)
   B. A few 28.0 (18.0 - 40.8)
   C. Some 17.4 (11.7 - 26.8)
   D. Most 8.7 (3.7 - 19.1)
   E. All 3.9 (1.9 - 7.6)

110. Have used drugs such as marijuana or cocaine?
   A. None 44.4 (35.7 - 53.4)
   B. A few 29.4 (22.3 - 37.6)
   C. Some 15.4 (11.7 - 19.9)
   D. Most 8.2 (5.6 - 11.7)
   E. All 2.7 (1.0 - 7.3)

Activities
The next 5 questions ask about how many times you have done the following things.

111. How often do you attend religious or spiritual services?
   A. Every day 3.6 (1.5 - 8.4)
   B. 1 to 6 times a week 24.7 (15.9 - 36.2)
   C. 1 to 3 times a month 13.7 (9.3 - 19.7)
   D. 3 to 11 times a year 9.9 (5.9 - 16.2)
   E. Only once or twice a year 12.9 (7.4 - 21.8)
   F. Never 35.2 (26.9 - 44.6)
112. During the school year, how many hours a week do you work at a job?  
   A. I do not work 76.1 (64.8 - 84.6)  
   B. 1 to 4 hours per week 4.7 (2.0 - 10.4)  
   C. 5 to 9 hours per week 3.3 (0.9 - 11.0)  
   D. 10 to 20 hours per week 8.6 (3.8 - 18.3)  
   E. Over 20 hours per week 7.4 (4.6 - 11.8)  

113. During the last four weeks, how many days of school have you missed  
   because you skipped or ditched?  
   A. None 42.2 (33.7 - 51.3)  
   B. 1 day 16.5 (12.0 - 22.4)  
   C. 2 days 9.5 (4.6 - 18.4)  
   D. 3 days 6.7 (3.3 - 12.9)  
   E. 4 to 5 days 6.6 (2.5 - 16.3)  
   F. 6 to 10 days 7.9 (6.0 - 10.4)  
   G. 11 or more days 10.6 (6.7 - 16.5)  

114. How often do you come to classes without bringing paper or something to  
   write with?  
   A. Never 60.1 (52.8 - 67.0)  
   B. Sometimes 31.1 (25.8 - 36.9)  
   C. Usually 8.8 (5.2 - 14.5)  

115. How often do you come to classes without your homework finished?  
   A. Never 15.7 (9.9 - 24.1)  
   B. Sometimes 73.4 (64.2 - 80.9)  
   C. Usually 10.9 (6.7 - 17.2)  

Body Weight  
The next 3 questions ask about body weight.  
116. During the past 30 days, did you exercise to lose weight or to keep from  
   gaining weight?  
   A. Yes 66.0 (56.3 - 74.6)  
   B. No 34.0 (25.4 - 43.7)  

117. During the past 30 days, did you eat less food, fewer calories, or foods low in  
   fat to lose weight or to keep from gaining weight?  
   A. Yes 38.6 (29.8 - 48.2)  
   B. No 61.4 (51.8 - 70.2)  

118. During the past 30 days, did you vomit or take laxatives to lose weight or to  
   keep from gaining weight?  
   A. Yes 12.4 (6.9 - 21.3)  
   B. No 87.6 (78.7 - 93.1)
Appendix A: Questionnaire

Food
The next 8 questions ask about food you ate or drank during the past 7 days. Think about all the meals and snacks you had from the time you got up until you went to bed. Be sure to include food you ate at home, at school, at restaurants, or anywhere else.

119. During the past 7 days, how many times did you drink 100% fruit juices such as orange juice, apple juice, or grape juice? (Do not count punch, Kool-Aid, sports drinks, or other fruit-flavored drinks.)

</table>
Health-Related Topics
The next 3 questions ask about other health-related topics.

131. Have you ever been taught about AIDS or HIV infection in school?
   A. Yes 70.9 (62.4 - 78.1)
   B. No  18.6 (11.6 - 28.4)
   C. Not sure 10.5 (7.1 - 15.3)

132. Has a doctor or nurse ever told you that you have asthma?
   A. Yes 20.7 (14.5 - 28.6)
   B. No  76.0 (69.8 - 81.2)
   C. Not sure 3.3 (1.6 - 6.8)

133. Do you still have asthma?
   A. I have never had asthma 64.1 (56.1 - 71.4)
   B. Yes  19.3 (13.3 - 27.2)
   C. No  13.7 (8.4 - 21.5)
   D. Not sure  2.9 (1.6 - 5.2)

You and Your Family
These last 3 questions ask for some information about you and your family.

134. How often do you speak a language other than English at home?
   A. Never 28.6 (18.6 - 41.3)
   B. Less than half the time 15.3 (9.5 - 23.7)
   C. About half the time 18.3 (13.1 - 24.9)
   D. More than half the time but not all of the time 13.3 (7.2 - 23.2)
   E. All of the time 24.6 (15.3 - 37.0)

135. Were you born in the USA?
   A. Yes 91.1 (83.7 - 95.4)
   B. No  8.9 (4.6 - 16.3)

136. During the past 12 months, which of the following statements best describes the food eaten by you and your family?
   A. Enough food to eat 89.1 (84.4 - 92.4)
   B. Sometimes not enough food to eat 9.4 (6.5 - 13.4)
   C. Often not enough food to eat 1.6 (0.5 - 5.2)

This is the end of the survey.
Thank you very much for your help.
Appendix B: Definitions of Protective Behaviors

Each protective factor is briefly described below. The measure is constructed from the responses to the survey questions listed below its description.

Caring and Supportive Relationships
Caring and supportive relationships refer to the interactions between youth and parents, peers, and adults in the school and community that convey love, acceptance, and affirmation. These resiliency factors are constructed from responses to the following survey questions.
- **Parent or other adult in the family**
  - How true do you feel these statements are for you?
  - In my home, there is a parent or some other adult...
    - ...who is interested in my school work.
    - ...who talks with me about my problems.
    - ...who listens to me when I have something to say.

- **Teacher or other adult in the school**
  - How true do you feel these statements are for you?
  - At my school, there is a teacher or some other adult...
    - ...who really cares about me.
    - ...who notices when I’m not there.
    - ...who listens to me when I have something to say.

- **Adult in the community**
  - How true do you feel these statements are for you?
  - Outside of my home and school, there is an adult...
    - ...who really cares about me.
    - ...who notices when I am upset about something.
    - ...whom I trust.

- **Peers**
  - How true do you feel these statements are for you?
  - I have a friend about my own age...
    - ...who really cares about me.
    - ...who talks with me about my problems.
    - ...who helps me when I’m having a hard time.

Behavioral Boundaries
Behavioral Boundaries refer to interactions with parents and the school that convey standards for acceptable and appropriate behavior.

- **Family**
  - How true do you feel these statements are for you?
    - When I am not at home, one of my parents/guardians knows where I am and who I am with.
    - My family has clear rules about drug and alcohol use.
    - My family has clear rules and standards for my behavior.

- **School**
  - How true do you feel these statements are for you?
    - In my school, there are clear rules about what students can and cannot do.
High Expectations

Home
In my home, there is a parent or some other adult …
...who expects me to follow the rules.
...who believes that I will be a success.

School
At my school, there is a teacher or some other adult…
...who tells me when I do a good job.
...who believes that I will be a success.

Adult in the community
Outside of my home and school, there is an adult…
who tells me when I do a good job.

Other
Positive peer influence
Youth standards for acceptable behavior are influenced by their peers and close friends.
How true do you feel these statements are for you?
My friends get into a lot of trouble.
My friends do well in school.

Positive peer influence related to substance use
Among the people you consider to be your closest friends, how many would you say do the following?
Drink alcohol once a week or more?
Have used drugs such as marijuana or cocaine?

Involvement in school activities
At school I am involved in sports, clubs, or other extra-curricular activities (such as band,
cheerleading, or student council).

Impulsiveness
I often do things without thinking about what will happen.

Religiosity: goes to church/religious service
How often do you attend religious or spiritual services?
Appendix C: Academic Performance and Related Behaviors

Academic performance and motivation measures included the following:

Gets mostly A's and B's (good grades)
   Answered "Mostly A's" or "Mostly B's" to the question,
   During the past 12 months, how would you describe your grades in school?

Do my best work at school
   Answered "Very much true" or "Pretty much true" to the statement,
   At school, I try hard to do my best work

Plans to continue education after high school
   Answered "Very much true" or "Pretty much true" to the statement,
   I plan to go to college or some other school after high school.

Skipped school once a week or more on average
   Answered 4 or more days to the question,
   During the last four weeks, how many days of school have you missed because you skipped or ditched?

Sometimes or usually comes to class w/out paper/pencil
   Answered "Sometimes" or "Usually" to the question,
   How often do you come to classes without bringing paper or something to write with?

Sometimes or usually comes to class w/out homework finished
   Answered "Sometimes" or "Usually" to the question,
   How often do you come to classes without your homework finished?
