ACKNOWLEDGEMENTS

The production of this report was made possible by collaboration between the New Mexico Department of Health (NMDOH), and the New Mexico Public Education Department (NMPED), with technical support from the University of New Mexico Prevention Research Center (UNM PRC) and the Division of Adolescent and School Health, Centers for Disease Control and Prevention (CDC-DASH). Gratitude is extended to the individuals listed below for their contribution toward developing and producing this report.

New Mexico Public Education Department
Susanna M. Murphy, Ph.D., Secretary of Education
Sheila Hyde, Ph.D., Deputy Secretary, Learning and Accountability
Kristine M. Meurer, Ph.D., Acting Assistant Secretary, Student Success Division *
William O. Blair, Ph.D., Assistant Director, School and Family Support Bureau *
Dean Hopper, M.A.Ed., Assistant Director, School and Family Support Bureau
Lonnie Barraza, M.S.Ed, HIV Program Administrator *

New Mexico Department of Health

Introduction

This report contains county level results from the 2009 New Mexico High School Youth Risk and Resiliency Survey (YRRS), a statewide survey of public school students, grades 9-12. Statewide and county level results will be available at www.YouthRisk.org and www.health.state.nm.us/ERD/HealthData/yrrs.shtml. Together, these documents comprise a useful tool for those working on youth-related issues at the state and local level.

The YRRS is organized into two major content areas: risk behaviors and protective (resiliency) factors. Risk behaviors include behaviors associated with unintentional injury, violence, sadness and suicidal ideation, tobacco use, alcohol use, drug use, sexual activity, physical activity, and nutrition. Protective or resiliency factors are measures of the positive and supportive relationships, experiences, activities, resources and values that encourage healthy youth development. Resiliency factors and related traits include caring and supportive relationships in the family, school, community and with peers; boundaries set by the family and school; positive peer support; meaningful participation and constructive use of time in school and outside of school; and others (Appendix B).

Additionally, this report includes a section on academic measures and traits. These academic measures include getting good grades (mostly A's and B's), trying hard to do good work in school, planning to go to college, skipping or ditching school, coming to class with paper and something to write with, and completing homework.

How to Read this Report

This report has three main sections, each of which consists of a set of bar and line charts. The first section presents the results of the major risk behaviors examined in the survey. Each category of risk behavior is presented with several data charts. At the beginning of each topic area, a set of line charts gives results for multiple survey years of the YRRS (2003, 2005, 2007, and 2009). A following set of bar charts compares results for the county to results for the entire state, compares the behaviors of boys to those of girls, and makes comparisons between grade levels within the county.

The second section presents results for the academic measures and behaviors. As with the risk behaviors, there are line and bar charts presenting trends, a comparison between the state and the county, a comparison between boys and girls in the county, and a comparison of grade levels within the county. Using the same styles of charts, the third section of the report presents results for the resiliency/protective factors.

In some cases when there were very few students in a particular age or gender group, data have been suppressed to protect the anonymity of the individual respondents.

---------------------------------------------------------------------------------------------------------------------------------

NOTE: County level YRRS reports are freely available. School district reports have been distributed to school district offices. School districts are encouraged to reproduce and share these reports with community groups concerned with prevention and health promotion. However, school district level results will not be released without express permission of the school district superintendent. Forms for requesting school district data are available at www.YouthRisk.org.
Understanding the Charts - and A Word about Error Bars

The bar charts in this report present the percentage of students who reported engaging in any given risk behavior or who reported having any given protective factor. The height of the bars conveys the percentage of students reporting each trait, and provides a quick visual comparison between different groups of students reporting that trait. A label for each bar presents the actual percentage of students who reported each trait. For instance, the chart on page 14, Personal Safety: Injury, shows that 8.3% of students in New Mexico rarely or never wore seatbelts, while 10.5% of students in Mora County rarely or never wore seatbelts.

Because of the high cost and logistical complications involved in conducting a statewide survey, the YRRS was administered to a sample of students, rather than to every single student in each school district. Because YRRS data are from a sample of students, and not the entire student body, the results in this report are estimates. As with all estimates, there is some uncertainty associated with each of these estimates. On the charts in this report, this degree of uncertainty is represented by an error bar (or confidence interval). The error bar is the thin ‘I’ shaped line that extends above and below the end of each bar in a chart. One of the major influences on the size of the confidence interval or error bar is the number of participants in the survey. In general, this means that with more students participating in the survey, there will be a higher degree of confidence in the results (i.e., error bars will be smaller).

The proper interpretation of an error bar can be illustrated by looking at the chart below. This chart compares the New Mexico prevalence of smoking and cocaine use to the United States prevalence for 2005, a previous survey year. The chart shows that the prevalence of current smoking was 25.7% in New Mexico and 23.0% in the United States. The error bar for the estimate of current smoking among New Mexico students extends approximately 4 percentage points in either direction, from 22.0% to 29.8%. This means that we are confident that the actual percentage of smokers in this group of students was between 22.0% and 29.8%. The error bar for the estimate current smoking in the US extends approximately 2.5 percentage points in either direction, from 20.7 to 25.3%. We are confident that the actual percentage of smokers among this group was between 20.7% and 25.3%.

<td>7.9</td>
<td>25.7</td>
</tr>
<tr>
<td><strong>US</strong></td>
<td>3.4</td>
<td>23.0</td>
</tr>
</tbody>
</table>
How does knowing the upper and lower limits of our error bars help us? While it appears at first glance that New Mexico has a higher prevalence of smoking than the United States (25.7% vs. 23.0%), a closer look at the error bars shows a more complicated picture. The error bars for the New Mexico estimate (22.0% - 29.8%) and the US estimate (20.7% - 25.3%) overlap. Because of this overlap, we do not have a high degree of confidence that the prevalence of smoking in New Mexico is actually different from the prevalence in the United States. In other words, the difference between the prevalence of smoking in New Mexico and the United States is not statistically significant.

For cocaine use it also appears that in 2005, New Mexico had a higher prevalence than the United States (7.9% vs. 3.4%). The error bar for New Mexico extends from 6.6% to 9.5%, and the error bar for the United States extends from 2.8% to 4.4%. Because the higher bound of the US error bar (4.4%) is lower than the lower bound of the NM error bar (6.6%), these error bars do not overlap. For cocaine use, we are confident in saying that the New Mexico prevalence was higher than the US prevalence. In other words, the difference between the 2005 prevalence of cocaine use in New Mexico and the United States was a statistically significant difference.

For some small counties, error bars have been removed from this report. With small populations, the number of students sampled can approach the total student population. In these cases, error bars would have limited meaning because with a high percentage of students surveyed, there is less uncertainty around the estimates than error bars suggest.
Methodology

The YRRS was implemented in the fall semester of the 2009-10 school year. All public school districts in New Mexico were invited to participate in the 2009 High School YRRS. Of 89 districts statewide, 76 districts participated. From each participating school district, schools with students from 9th to 12th grades were selected to participate.* The probability of selection of each school was proportional to the size of its 9th-12th grade population. In large school districts only some of the schools were selected to participate, while in small districts, all schools were selected. Classrooms were systematically selected from each school, and all students in each selected classroom were asked to participate.

In each participating school, a single day was arranged on which to administer the survey. Questionnaire forms and pencils were distributed to each student in participating classes, and students were asked to fill out the questionnaires independently of other students and without teacher assistance.

Questionnaires were electronically scanned, and data were analyzed using STATA 10.1, a statistical software program.

Limitations of the YRRS

All information from the YRRS was self-reported by the participating students. While most questions on the YRRS come from nationally validated surveys, and data quality has been demonstrated to be very high in national surveys, there is no way to guarantee the truthfulness of the participants in any survey that relies on self-reporting.

A good response rate is one of the most important goals in conducting a survey. At the school district level, a response rate is the percentage of all students selected for the survey who complete and return a useable questionnaire form. At the state level, the response rate incorporates the participation of school districts and schools as well as the participation of students. An adequate response rate means that survey results are more likely to represent the actual student population. The statewide response rate for the 2009 High School YRRS was 67%, an adequate response rate to represent the population.

In order to achieve a statewide response rate of 60% or greater, we aimed for a 75% response rate from each participating school district. Most participating school districts and counties met this target or were close to it. While the response rate was generally very good in participating schools, the overall response rate was driven down by the school districts that declined to participate.

* The Middle School YRRS was also conducted at the same time; results from that survey are published separately.
Participation in Mora County

The response rate for Mora County was 76%.

A high response rate produces survey results that are more representative of the student population. A response rate of at least 60% allows generalization of results to the entire student body. A response rate of 75% is excellent and allows a high degree of confidence in results. Because a high response rate means that more students have been surveyed, a high response rate will also be reflected in the error bars (i.e., with a higher response rate and more students included in the survey, error bars will be smaller and confidence intervals will be narrower). Response rates below 60% are considered low, and caution should be exercised in interpreting results. Low response rates indicate that the data may represent only students who participated in the survey and not necessarily the entire student body.

</table>
Appendix A: Questionnaire

Sadness and Attempted Suicide

The next 5 questions ask about sad feelings and attempted suicide. Sometimes people feel so depressed about the future that they may consider attempting suicide; that is, taking some action to end their own lives.

23. During the past 12 months, did you ever feel so sad or hopeless almost every day for two weeks or more in a row that you stopped doing some usual activities?
   A. Yes 22.9 (16.3 - 31.1)
   B. No 77.1 (68.9 - 83.7)

24. During the past 12 months, did you ever seriously consider attempting suicide?
   A. Yes 13.3 (8.7 - 19.8)
   B. No 86.7 (80.2 - 91.3)

25. During the past 12 months, did you make a plan about how you would attempt suicide?
   A. Yes 13.6 (8.4 - 21.3)
   B. No 86.4 (78.7 - 91.6)

26. During the past 12 months, how many times did you actually attempt suicide?
   A. 0 times 93.8 (87.1 - 97.1)
   B. 1 time 5.2 (2.3 - 11.5)
   C. 2 or 3 times 0.0
   D. 4 or 5 times 0.0
   E. 6 or more times 1.0 (0.1 - 7.6)

27. If you attempted suicide during the past 12 months, did any attempt result in an injury, poisoning, or overdose that had to be treated by a doctor or nurse?
   A. I did not attempt suicide during the past 12 months 93.8 (87.1 - 97.1)
   B. Yes 2.7 (0.8 - 8.4)
   C. No 3.6 (1.1 - 10.9)

Tobacco Use

The next 12 questions ask about tobacco use.

28. Have you ever tried cigarette smoking, even one or two puffs?
   A. Yes 74.5 (60.6 - 84.7)
   B. No 25.5 (15.3 - 39.4)
29. How old were you when you smoked a whole cigarette for the first time?  
   A. I have never smoked a whole cigarette  49.6 (35.3 - 63.9)  
   B. 8 years old or younger  10.6 (7.7 - 14.3)  
   C. 9 or 10 years old  4.0 (1.8 - 8.9)  
   D. 11 or 12 years old  9.6 (4.3 - 20.2)  
   E. 13 or 14 years old  13.8 (8.3 - 22.0)  
   F. 15 or 16 years old  10.2 (4.7 - 20.9)  
   G. 17 years old or older  2.2 (0.5 - 8.5)  

30. During the past 30 days, on how many days did you smoke cigarettes?  
   A. 0 days  73.1 (61.6 - 82.1)  
   B. 1 or 2 days  5.4 (2.6 - 10.8)  
   C. 3 to 5 days  0.8 (0.1 - 5.9)  
   D. 6 to 9 days  5.9 (2.6 - 12.6)  
   E. 10 to 19 days  2.7 (0.9 - 8.1)  
   F. 20 to 29 days  1.3 (0.2 - 7.9)  
   G. All 30 days  10.8 (5.2 - 21.3)  

31. During the past 30 days, on the days you smoked, how many cigarettes did you smoke per day?  
   A. I did not smoke cigarettes during the past 30 days  74.0 (61.8 - 83.4)  
   B. Less than 1 cigarette per day  4.0 (1.6 - 9.6)  
   C. 1 cigarette per day  4.3 (1.9 - 9.5)  
   D. 2 to 5 cigarettes per day  15.3 (9.9 - 22.9)  
   E. 6 to 10 cigarettes per day  1.5 (0.2 - 10.3)  
   F. 11 to 20 cigarettes per day  0.9 (0.1 - 6.7)  
   G. More than 20 cigarettes per day  0.0  

32. During the past 30 days, how did you usually get your own cigarettes? (Select only one response.)  
   A. I did not smoke cigarettes during the past 30 days  72.7 (61.6 - 81.6)  
   B. I bought them in a store such as a convenience store, supermarket, discount store, or gas station  5.2 (2.0 - 12.6)  
   C. I bought them from a vending machine  1.1 (0.2 - 8.0)  
   D. I gave someone else money to buy them for me  11.7 (6.7 - 19.8)  
   E. I borrowed (or bummed) them from someone else  4.8 (2.0 - 11.1)  
   F. A person 18 years old or older gave them to me  0.9 (0.1 - 6.7)  
   G. I took them from a store or family member  0.7 (0.1 - 5.2)  
   H. I got them some other way  2.8 (0.9 - 8.8)

Appendix A: Questionnaire

38. How wrong do your parents feel it would be for you to smoke cigarettes?  
   %  (95% CI)
   A. Very wrong 72.5  (57.3 - 83.9)
   B. Wrong 9.9  (4.0 - 22.4)
   C. A little bit wrong 8.9  (5.6 - 14.0)
   D. Not wrong at all 8.6  (4.6 - 15.7)

39. How much do you think people risk harming themselves (physically or in other ways) if they smoke one or more packs of cigarettes per day?  
   %  (95% CI)
   A. No risk 8.9  (3.8 - 19.5)
   B. Slight risk 5.9  (2.2 - 14.7)
   C. Moderate risk 16.9  (12.5 - 22.4)
   D. Great risk 68.3  (56.5 - 78.2)

Alcohol

The next 11 questions ask about drinking alcohol. This includes drinking beer, wine, wine coolers, and liquor such as rum, gin, vodka, or whiskey. For these questions, drinking alcohol does not include drinking a few sips of wine for religious purposes.

40. How old were you when you had your first drink of alcohol other than a few sips?  
   %  (95% CI)
   A. I have never had a drink of alcohol other than a few sips 24.1  (15.5 - 35.4)
   B. 8 years old or younger 14.2  (9.9 - 20.0)
   C. 9 or 10 years old 11.0  (4.0 - 26.8)
   D. 11 or 12 years old 8.8  (4.6 - 16.2)
   E. 13 or 14 years old 31.8  (23.2 - 41.9)
   F. 15 or 16 years old 6.9  (3.0 - 14.8)
   G. 17 years old or older 3.2  (0.7 - 13.0)

41. During the past 30 days, on how many days did you have at least one drink of alcohol?  
   %  (95% CI)
   A. 0 days 60.0  (46.4 - 72.3)
   B. 1 or 2 days 12.6  (6.7 - 22.3)
   C. 3 to 5 days 14.1  (7.2 - 25.6)
   D. 6 to 9 days 6.5  (2.4 - 16.3)
   E. 10 to 19 days 4.9  (2.0 - 11.5)
   F. 20 to 29 days 0.0
   G. All 30 days 1.9  (0.5 - 7.4)
42. During the past 30 days, on how many days did you have 5 or more drinks of alcohol in a row, that is, within a couple of hours? % (95% CI)

Marijuana Use
The next 5 questions ask about marijuana use. Marijuana also is called grass or pot.

51. How old were you when you tried marijuana for the first time? % (95% CI)
   A. I have never tried marijuana 35.9 (23.9 - 50.1)
   B. 8 years old or younger 5.7 (2.7 - 12.0)
   C. 9 or 10 years old 5.7 (2.5 - 12.7)
   D. 11 or 12 years old 10.4 (4.6 - 21.7)
   E. 13 or 14 years old 24.4 (15.0 - 37.2)
   F. 15 or 16 years old 14.6 (5.2 - 34.9)
   G. 17 years old or older 3.2 (0.9 - 10.4)

52. During the past 30 days, how many times did you use marijuana? % (95% CI)
   A. 0 times 60.4 (51.4 - 68.7)
   B. 1 or 2 times 12.9 (6.7 - 23.4)
   C. 3 to 9 times 8.7 (5.0 - 14.6)
   D. 10 to 19 times 5.7 (2.2 - 13.7)
   E. 20 to 39 times 4.5 (1.6 - 11.5)
   F. 40 or more times 7.8 (4.4 - 13.4)

53. During the past 30 days, how many times did you use marijuana on school property? % (95% CI)
   A. 0 times 82.0 (72.5 - 88.7)
   B. 1 or 2 times 14.3 (9.4 - 21.3)
   C. 3 to 9 times 1.3 (0.3 - 5.3)
   D. 10 to 19 times 0.0
   E. 20 to 39 times 0.8 (0.1 - 5.6)
   F. 40 or more times 1.6 (0.4 - 6.2)

54. How wrong do your parents feel it would be for you to use marijuana? % (95% CI)
   A. Very wrong 74.2 (64.7 - 81.9)
   B. Wrong 11.7 (7.1 - 18.9)
   C. A little bit wrong 11.1 (5.0 - 22.8)
   D. Not wrong at all 2.9 (0.9 - 8.8)

55. How much do you think people risk harming themselves (physically or in other ways) if they smoke marijuana regularly? % (95% CI)
   A. No risk 19.1 (11.5 - 30.2)
   B. Slight risk 24.1 (15.2 - 36.0)
   C. Moderate risk 25.0 (11.9 - 45.0)
   D. Great risk 31.8 (20.9 - 45.0)
Other Drugs
The next 12 questions ask about other drugs.

56. During your life, how many times have you used any form of cocaine, including powder, crack, or freebase? % (95% CI)
   A. 0 times 86.5 (77.1 - 92.4)
   B. 1 or 2 times 6.7 (2.7 - 15.6)
   C. 3 to 9 times 3.2 (0.8 - 11.6)
   D. 10 to 19 times 0.0
   E. 20 to 39 times 1.6 (0.2 - 10.2)
   F. 40 or more times 2.1 (0.5 - 8.7)

57. During the past 30 days, how many times did you use any form of cocaine, including powder, crack, or freebase? % (95% CI)
   A. 0 times 94.0 (86.8 - 97.4)
   B. 1 or 2 times 3.0 (0.8 - 10.9)
   C. 3 to 9 times 1.6 (0.2 - 10.2)
   D. 10 to 19 times 0.0
   E. 20 to 39 times 0.0
   F. 40 or more times 1.4 (0.2 - 9.3)

58. During the past 30 days, how many times have you sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high? % (95% CI)
   A. 0 times 92.0 (87.1 - 95.2)
   B. 1 or 2 times 3.4 (1.2 - 9.4)
   C. 3 to 9 times 1.6 (0.2 - 9.6)

   E. 14 years old 11.4 (6.1 - 20.3)
   F. 15 years old 6.8 (2.3 - 18.3)
   G. 16 years old 1.7 (0.2 - 12.1)
   H. 17 years old or older 1.9 (0.2 - 14.3)

74. During your life, with how many people have you had sexual intercourse?
   A. I have never had sexual intercourse 61.4 (46.5 - 74.4)
   B. 1 person 11.1 (5.4 - 21.6)
   C. 2 people 6.7 (2.5 - 16.8)
   D. 3 people 11.7 (6.0 - 21.5)
   E. 4 people 0.0
   F. 5 people 2.2 (0.3 - 14.6)
   G. 6 or more people 6.9 (1.7 - 23.9)

75. During the past 3 months, with how many people did you have sexual intercourse?
   A. I have never had sexual intercourse 62.3 (47.7 - 74.9)
   B. I have had sexual intercourse, but not during the past 3 months 16.4 (9.8 - 26.0)
   C. 1 person 12.1 (5.3 - 25.2)
   D. 2 people 4.5 (0.6 - 27.2)
   E. 3 people 3.7 (0.9 - 13.7)
   F. 4 people 1.1 (0.1 - 7.7)
   G. 5 people 0.0
   H. 6 or more people 0.0

76. Did you drink alcohol or use drugs before you had sexual intercourse the last time?
   A. I have never had sexual intercourse 61.0 (47.3 - 73.1)
   B. Yes 6.5 (2.4 - 16.4)
   C. No 32.5 (22.4 - 44.7)

77. The last time you had sexual intercourse, did you or your partner use a condom?
   A. I have never had sexual intercourse 61.0 (47.3 - 73.1)
   B. Yes 23.9 (13.7 - 38.3)
   C. No 15.1 (7.3 - 28.6)
78. The last time you had sexual intercourse, what one method did you or your partner use to prevent pregnancy? (Select only one response.)

Appendix A: Questionnaire

At my school, there is a teacher or some other adult...

84. ...who really cares about me.
   A. Not true at all  15.9  (8.8 - 27.0)
   B. A little true    17.2  (8.6 - 31.4)
   C. Pretty much true 10.4  (5.4 - 19.1)
   D. Very much true  56.5  (46.0 - 66.4)

85. ...who notices when I’m not there.
   A. Not true at all  13.8  (4.5 - 35.2)
   B. A little true    9.8  (4.0 - 22.1)
   C. Pretty much true 14.9  (7.8 - 26.5)
   D. Very much true  61.4  (43.8 - 76.5)

86. ...who listens to me when I have something to say.
   A. Not true at all  10.7  (3.4 - 29.2)
   B. A little true    23.2  (10.6 - 43.5)
   C. Pretty much true 23.6  (13.0 - 38.9)
   D. Very much true  42.6  (28.5 - 57.9)

87. ...who tells me when I do a good job.
   A. Not true at all  6.8  (1.5 - 25.8)
   B. A little true    20.0  (8.1 - 41.5)
   C. Pretty much true 22.4  (16.5 - 29.7)
   D. Very much true  50.7  (35.1 - 66.2)

88. ...who believes that I will be a success.
   A. Not true at all  5.0  (1.4 - 16.3)
   B. A little true    19.4  (6.9 - 43.6)
   C. Pretty much true 26.3  (17.5 - 37.5)
   D. Very much true  49.4  (29.8 - 69.1)

Outside of my home and school, there is an adult...

89. ...who really cares about me.
   A. Not true at all  7.7  (3.9 - 14.6)
   B. A little true    15.7  (5.7 - 36.7)
   C. Pretty much true 10.9  (3.4 - 29.8)
   D. Very much true  65.7  (47.4 - 80.2)

90. ...who notices when I am upset about something.
   A. Not true at all  5.8  (2.0 - 15.8)
   B. A little true    14.6  (6.8 - 28.6)
   C. Pretty much true 17.0  (9.3 - 29.1)
   D. Very much true  62.5  (47.6 - 75.4)

91. ...whom I trust.
   A. Not true at all  5.6  (1.2 - 22.8)
   B. A little true    11.4  (5.0 - 23.9)
   C. Pretty much true 10.9  (5.0 - 22.2)

99. In my school, there are clear rules about what students can and cannot do.

A. Not true at all 14.5 (6.9 - 27.9)
B. A little true 8.8 (2.9 - 23.6)
C. Pretty much true 23.2 (11.1 - 42.0)
D. Very much true 53.5 (35.3 - 70.9)

100. At school, I try hard to do my best work.

A. Not true at all 0.0 (-)
B. A little true 10.6 (4.5 - 23.0)
C. Pretty much true 33.6 (20.5 - 49.8)
D. Very much true 55.7 (37.9 - 72.2)

101. I plan to go to college or some other school after high school.

A. Not true at all 8.8 (2.3 - 28.6)
B. A little true 7.3 (2.1 - 22.5)
C. Pretty much true 13.2 (4.8 - 31.8)
D. Very much true 70.7 (53.2 - 83.7)

102. At school I am involved in sports, clubs, or other extra-curricular activities (such as band, cheerleading, or student council).

A. Not true at all 27.6 (19.3 - 37.7)
B. A little true 11.6 (3.5 - 32.4)
C. Pretty much true 5.1 (0.9 - 25.4)
D. Very much true 55.7 (39.9 - 70.4)

103. Outside of my home and school, I am a part of clubs, sports teams, church/temple, or other group activities.

A. Not true at all 34.2 (21.8 - 49.2)
B. A little true 3.4 (0.9 - 11.5)
C. Pretty much true 8.2 (1.8 - 29.9)
D. Very much true 54.3 (39.0 - 68.8)

104. Outside of my home and school, I am involved in music, art, literature, sports, or a hobby.

A. Not true at all 25.5 (18.0 - 34.9)
B. A little true 18.2 (6.3 - 42.2)
C. Pretty much true 16.4 (6.6 - 35.2)
D. Very much true 39.9 (26.4 - 55.2)

105. Outside of my home and school, I help other people.

A. Not true at all 8.3 (2.4 - 25.2)
B. A little true 25.7 (13.6 - 43.2)
C. Pretty much true 43.9 (27.3 - 61.9)
D. Very much true 22.1 (10.5 - 40.7)
106. I often do things without thinking about what will happen.
   A. Not true at all 7.6 (2.1 - 24.4)
   B. A little true 53.4 (37.7 - 68.4)
   C. Pretty much true 7.2 (1.7 - 25.4)
   D. Very much true 31.8 (19.4 - 47.3)

107. My friends get into a lot of trouble.
   A. Not true at all 29.9 (17.1 - 46.9)
   B. A little true 28.4 (13.2 - 50.7)
   C. Pretty much true 25.2 (9.1 - 53.4)
   D. Very much true 16.5 (7.0 - 34.1)

108. My friends do well in school.
   A. Not true at all 9.2 (3.8 - 20.6)
   B. A little true 22.3 (13.5 - 34.4)
   C. Pretty much true 35.7 (20.3 - 54.7)
   D. Very much true 32.8 (17.2 - 53.6)

Among the people you consider to be your closest friends, how many would you say do the following?

109. Drink alcohol once a week or more?
   A. None 39.3 (20.1 - 62.4)
   B. A few 23.2 (10.3 - 44.4)
   C. Some 14.5 (6.6 - 29.0)
   D. Most 5.5 (1.8 - 15.5)
   E. All 17.6 (7.8 - 34.9)

110. Have used drugs such as marijuana or cocaine?
   A. None 25.5 (13.1 - 43.7)
   B. A few 29.7 (17.9 - 44.9)
   C. Some 4.8 (0.6 - 30.6)
   D. Most 14.3 (3.5 - 43.6)
   E. All 25.7 (13.7 - 43.0)

Activities
The next 5 questions ask about how many times you have done the following things.

111. How often do you attend religious or spiritual services?
   A. Every day 3.5 (0.5 - 21.1)
   B. 1 to 6 times a week 36.8 (23.1 - 53.1)
   C. 1 to 3 times a month 21.9 (9.0 - 44.0)
   D. 3 to 11 times a year 5.9 (0.8 - 31.9)
   E. Only once or twice a year 12.5 (2.6 - 43.0)
   F. Never 19.4 (8.3 - 39.1)
## Appendix A: Questionnaire

112. During the school year, how many hours a week do you work at a job?  
- A. I do not work: 61.9% (38.1 - 81.1)
- B. 1 to 4 hours per week: 11.7% (2.4 - 42.2)
- C. 5 to 9 hours per week: 13.9% (4.1 - 37.7)
- D. 10 to 20 hours per week: 4.8% (1.1 - 19.0)
- E. Over 20 hours per week: 7.7% (1.4 - 32.7)

113. During the last four weeks, how many days of school have you missed because you skipped or ditched?  
- A. None: 48.8% (26.5 - 71.5)
- B. 1 day: 23.3% (11.3 - 41.8)
- C. 2 days: 13.0% (2.9 - 42.7)
- D. 3 days: 3.9% (0.5 - 23.4)
- E. 4 to 5 days: 6.3% (0.7 - 38.0)
- F. 6 to 10 days: 2.7% (0.3 - 19.1)
- G. 11 or more days: 2.0% (0.3 - 13.9)

114. How often do you come to classes without bringing paper or something to write with?  
- A. Never: 39.2% (18.4 - 64.8)
- B. Sometimes: 38.5% (17.9 - 64.2)
- C. Usually: 22.4% (8.8 - 46.2)

115. How often do you come to classes without your homework finished?  
- A. Never: 15.2% (2.9 - 52.4)
- B. Sometimes: 69.0% (34.7 - 90.3)
- C. Usually: 15.7% (4.5 - 42.6)

### Body Weight

The next 3 questions ask about body weight.

116. During the past 30 days, did you exercise to lose weight or to keep from gaining weight?  
- A. Yes: 58.3% (28.1 - 83.3)
- B. No: 41.7% (16.7 - 71.9)

117. During the past 30 days, did you eat less food, fewer calories, or foods low in fat to lose weight or to keep from gaining weight?  
- A. Yes: 26.0% (12.4 - 46.7)
- B. No: 74.0% (53.3 - 87.6)

118. During the past 30 days, did you vomit or take laxatives to lose weight or to keep from gaining weight?  
- A. Yes: 10.5% (1.9 - 41.1)
- B. No: 89.5% (58.9 - 98.1)
Food
The next 8 questions ask about food you ate or drank during the past 7 days. Think about all the meals and snacks you had from the time you got up until you went to bed. Be sure to include food you ate at home, at school, at restaurants, or anywhere else.

119. During the past 7 days, how many times did you drink 100% fruit juices such as orange juice, apple juice, or grape juice? (Do not count punch, Kool-Aid, sports drinks, or other fruit-flavored drinks.)

<tr>
<td>C. Often not enough food to eat</td>
<td>0.0</td>
</tr>
</tbody>
</table>

This is the end of the survey.  
Thank you very much for your help.
Appendix B: Definitions of Protective Behaviors

Each protective factor is briefly described below. The measure is constructed from the responses to the survey questions listed below its description.

**Caring and Supportive Relationships**
Caring and supportive relationships refer to the interactions between youth and parents, peers, and adults in the school and community that convey love, acceptance, and affirmation. These resiliency factors are constructed from responses to the following survey questions.

**Parent or other adult in the family**
How true do you feel these statements are for you?
In my home, there is a parent or some other adult...
...who is interested in my school work.
...who talks with me about my problems.
...who listens to me when I have something to say.

**Teacher or other adult in the school**
How true do you feel these statements are for you?
At my school, there is a teacher or some other adult...
...who really cares about me.
...who notices when I’m not there.
...who listens to me when I have something to say.

**Adult in the community**
How true do you feel these statements are for you?
Outside of my home and school, there is an adult...
...who really cares about me.
...who notices when I am upset about something.
...whom I trust.

**Peers**
How true do you feel these statements are for you?
I have a friend about my own age...
...who really cares about me.
...who talks with me about my problems.
...who helps me when I’m having a hard time.

**Behavioral Boundaries**
Behavioral Boundaries refer to interactions with parents and the school that convey standards for acceptable and appropriate behavior.

**Family**
How true do you feel these statements are for you?
When I am not at home, one of my parents/guardians knows where I am and who I am with.
My family has clear rules about drug and alcohol use.
My family has clear rules and standards for my behavior.

**School**
How true do you feel these statements are for you?
In my school, there are clear rules about what students can and cannot do.
High Expectations

Home
In my home, there is a parent or some other adult …
...who expects me to follow the rules.
...who believes that I will be a success.

School
At my school, there is a teacher or some other adult…
...who tells me when I do a good job.
...who believes that I will be a success.

Adult in the community
Outside of my home and school, there is an adult…
who tells me when I do a good job.

Other
Positive peer influence
Youth standards for acceptable behavior are influenced by their peers and close friends.
How true do you feel these statements are for you?
   My friends get into a lot of trouble.
   My friends do well in school.

Positive peer influence related to substance use
Among the people you consider to be your closest friends, how many would you say do the following?
   Drink alcohol once a week or more?
   Have used drugs such as marijuana or cocaine?

Involvement in school activities
At school I am involved in sports, clubs, or other extra-curricular activities (such as band, cheerleading, or student council).

Impulsiveness
I often do things without thinking about what will happen.

Religiosity: goes to church/religious service
How often do you attend religious or spiritual services?
Appendix C: Academic Performance and Related Behaviors

Academic performance and motivation measures included the following:

Gets mostly A's and B's (good grades)
   Answered "Mostly A's" or "Mostly B's" to the question,
   During the past 12 months, how would you describe your grades in school?

Do my best work at school
   Answered "Very much true" or "Pretty much true" to the statement,
   At school, I try hard to do my best work

Plans to continue education after high school
   Answered "Very much true" or "Pretty much true" to the statement,
   I plan to go to college or some other school after high school.

Skipped school once a week or more on average
   Answered 4 or more days to the question,
   During the last four weeks, how many days of school have you missed because you skipped or ditched?

Sometimes or usually comes to class w/out paper/pencil
   Answered "Sometimes" or "Usually" to the question,
   How often do you come to classes without bringing paper or something to write with?

Sometimes or usually comes to class w/out homework finished
   Answered "Sometimes" or "Usually" to the question,
   How often do you come to classes without your homework finished?
