Footnotes

*All people who were initially diagnosed while residing in New Mexico during 2013 - age 13 and older
[†]Rates per 100,000 based on Bureau of Business and Economic Research Geospatial and Population Studies Program population estimates for 2013.
[‡]For new diagnoses, age at time of diagnosis. For persons living with HIV or AIDS, current age.
[§]For new diagnoses, residence at time of diagnosis. For persons living with HIV or AIDS, current residence.
 CNC means Can Not Calculate - population data is unavailable
 Red - Indicates greater than 20% change from previous year for values > 20.

Cautions

N < 20: Rate calculations for small numbers may be statistically unreliable. Fluctuations in the associated rates
 Region: New Mexico Department of Health constructed new health regions in 2012. Regional comparison to previous years is not recommended. A map depicting New Mexico's Health Regions is available for download from the New Mexico Department of Health at <http://ibis.health.state.nm.us/image/HealthRegions2012.png>.
