**BUDGET / ADMINISTRATIVE INFORMATION**

**Approved MAD 046 / Budget Worksheet (BWS)**

Budget Term:

**Surveyor Instruction:** *This document is used to verify the DDW Services the individual receives. The Surveyor must document the term of the budget and services received by the Individual. Surveyors must also document the agency providing the service to ensure that correct documents are in the file from the correct provider. This information will guide the Surveyor to determine what is applicable to the person.*

A licensed nurse completes the Aspiration Risk Management Screening tool (ARST). For this to be met, individuals at low-risk must have an annual ARST in Therap. Those with moderate or high risk, you must determine if a CARMP was developed or if there is a Decision Consultation Form.</p>	<p>Tag #1A15.2 (CoP)</p> <p>Date of ARST:</p> <p>Risk level:</p>			
<p><b>Comprehensive Aspiration Risk Management Plan (CARMP)</b>  <i>(Review in THERAP if Primary Provider. If Secondary Provider request info via admin or DRF).</i></p> <p><b>Surveyor Instruction:</b> The Comprehensive Aspiration Risk Management Plan (CARMP) is the HCP for aspiration, oral hygiene, and tube feeding. The CARMP is the only HCP that is shared in all service settings. When a CARMP is already in place, and there is a change of condition or level of risk, the IDT continues with the current CARMP until the IDT reviews it and makes changes as indicated.</p> <p>A CARMP is required for any adult or young adult with moderate to high risk of aspiration. Within 60 days following ARST result a CARMP must be developed, however if the IDT does not want to implement a CARMP the following must occur:</p> <ul style="list-style-type: none"> <li>• CM coordinates meeting for Decision Consultation Process to assure informed decision-making.</li> <li>• The individual &amp; guardian may accept all, part or none of the CARMP.</li> <li>• Final decisions are on the Decision Consultation/Team Justification Form</li> <li>• Team edits &amp; finalizes CARMP per DC/TJF.</li> </ul> <p><i>In order for this to be met, there must be a current CARMP or if CARMP is declined there must be a DCF.</i></p>	<p>Tag #1A15.2 (CoP)</p> <p>Date of CARMP: _____</p>

<p><b>Health Care Plans (HCP)</b></p> <p><b>Surveyor Instruction:</b> The Primary Provider Agency nurse (PPN) is required to create HCPs that address all the areas identified as required in the most current e-CHAT summary report which is indicated by "R" in the HCP column. At the nurse's sole discretion, based on prudent nursing practice, HCPs may be combined where clinically appropriate. The nurse should use nursing judgment to determine whether to also include HCPs for any of the areas indicated by "C" on the e-CHAT summary report. The nurse may also create other HCPs that the nurse determines are warranted. For this to be met, there must be current HCPs in place as required by the eCHAT and / or IST section of the ISP.</p>	<p>Tag #1A15.2 (CoP)</p> <p><b>Required by IST:</b></p> <p><b>Required by eCHAT:</b></p>
