
New Mexico Health Service Corps Stipend Program

General Guidelines

Thank you for your interest in the New Mexico Health Service Corps (NMHSC) Stipend Program! The State of New Mexico wants to support your education efforts and needs your vital skills and service to overcome health care disparities across the state.

The NMHSC is now accepting applications and will close on **November 16, 2020 at 5 PM MT**.

Please read all information carefully before applying.

An individual who receives a New Mexico Health Service Corps Commitment Stipend is required to provide two (2) years of service with monthly service hours reporting requirements, upon licensure, at an approved health clinic in a medically underserved area. **Defaulting on this agreement will result in a penalty as outlined in the NM Statute, 7.29.2 NMAC, of repayment of three (3) times the amount of the total stipend received, plus up to 18% interest per year.**

If you have a service commitment to a Federal agency, such as the National Health Service Corps, Indian Health Service, or other Federal program, you are not eligible for the NMHSC due to program provisions.

Selection Process

Applicants are scored and ranked by the NMHSC Advisory Committee members.

Each evaluator will rank each category 1 to 5 points. The points are averaged. An applicant must receive a *minimum* of 19 points to be considered for the stipend award; 30 points is the maximum that an applicant can receive.

Stipend recipients are chosen from among the top scoring applicants. The number of applicants chosen is determined by the amount of money appropriated by the State Legislature for the current fiscal year.
