Packing List for Deployment
Packing List for Deployment

Following this list helps ensure that all deployed volunteers are self-sufficient and able to take care of their needs. The basic rule is 2-3-4. This means that each volunteer should deploy with 2 bags, 3 days of food and 4 quarts of water. The list includes not only minimally required items, but others to help one travel and live more comfortably during the span of assignment.

The two bags should be packed so that one is checked and one is a carryon. Never count on the checked bag arriving with you. Keep everything you will need in your carry on including meds, change of clothes, identification, flight and deployment information, and communication devices. Clothing should be chosen according to the weather and temperature, as well as for protection from the work environment.

Please ensure that your luggage remains within the required weights. As of July 1, 2008, most commercial airlines are not accepting checked luggage over 50 lbs. Each airline company has specific rules about carryon luggage. Please check with the airline company you are travelling with for their specific luggage requirements prior to travelling.

Main Flight Bag (Checked Luggage)

- Clothes (Regular)
