

PUBLIC HEALTH DIVISION

NORTHEAST REGION HEALTH PROMOTION PROGRAM

We serve our diverse communities by harnessing their power to create positive and lasting solutions to the public health issues they face, as well as locate resources and assist with health initiative development. We envision creating systems with engaged communities striving for a happy and healthy lifespan for all in New Mexico.

HOW WE SERVE COMMUNITIES

- Facilitate connection between community partners and NMDOH programs and resources
- Conduct community-based health promotion with community and tribal health councils, coalitions, and other partners
- Access resources and funding
- Link community partners to data, evidence-based interventions, and NMDOH programs.
- Provide technical assistance with community health assessment, health profiles, communications, and strategic planning
- Maintain open communication between community partners and NMDOH
- Engage in advocacy and policy development around local and state-wide health issues

WE CONNECT THE DOTS

“Health Promotion Teams strengthen collaborative efforts at the local level...to provide health councils and community partners with data, technical assistance and other resources at the request of local communities.”

- 2014 New Mexico State Health Improvement Plan
