NORTHEAST REGION
HEALTH PROMOTION PROGRAM

We serve our diverse communities by harnessing their power to create positive and lasting solutions to the public health issues they face, as well as locate resources and assist with health initiative development. We envision creating systems with engaged communities striving for a happy and healthy lifespan for all in New Mexico.

HOW WE SERVE COMMUNITIES

- Facilitate connection between community partners and NMDOH programs and resources
- Conduct community-based health promotion with community and tribal health councils, coalitions, and other partners
- Access resources and funding
- Link community partners to data, evidence-based interventions, and NMDOH programs.
- Provide technical assistance with community health assessment, health profiles, communications, and strategic planning
- Maintain open communication between community partners and NMDOH
- Engage in advocacy and policy development around local and statewide health issues

"Health Promotion Teams strengthen collaborative efforts at the local level...to provide health councils and community partners with data, technical assistance and other resources at the request of local communities."

- 2014 New Mexico State Health Improvement Plan
NORTHEAST REGION HEALTH PROMOTION PROGRAM TEAM

WHAT THE PROGRAM MANAGER DOES:
Leads the team to facilitate the Public Health Division mission and initiatives, coordinates and implements strategies to address health priorities and indicators, and supports community preventive and population-based services.

Audie Nadler
Coordinator
Community Health Councils
505-476-2650
audie.nadler@state.nm.us

WHAT THE EPIDEMIOLOGIST DOES:
Provides leadership for assessment, evaluation, and public health planning, develops and builds capacity within the team to increase assessment skills in data interpretation, analysis, program evaluation, and other related skills.

Vacant
Community Health Epidemiologist
Contact
Amy Sandoval

WHAT THE COORDINATORS DO:
Assure coordination of community health improvement activities with DOH by assessing community readiness, assist with provision and interpretation of data, identify local partners and include them in the planning and implementation of regional and state initiatives.

WHAT THE SPECIALISTS DO:
Work within and support their local Public Health Offices, engage with their local communities to address health priorities through the development of policy, supporting health councils, and implementing special projects and grants.
