Facilitate connection between community partners and NMDOH programs and resources

Conduct community-based health promotion with community and tribal health councils, coalitions, and other partners

Access resources and funding

Link community partners to data, evidence-based interventions, and NMDOH programs.

Provide technical assistance with community health assessment, health profiles, communications, and strategic planning

Maintain open communication between community partners and NMDOH

Engage in advocacy and policy development around local and statewide health issues

“Health Promotion Teams strengthen collaborative efforts at the local level...to provide health councils and community partners with data, technical assistance and other resources at the request of local communities.”

WHAT THE PROGRAM MANAGER DOES:  
Leads the team to facilitate the Public Health Division mission and initiatives, coordinates and implements strategies to address health priorities and indicators, and supports community preventive and population-based services

WHAT THE EPIDEMIOLOGIST DOES:  
Provides leadership for assessment, evaluation, and public health planning, develops and builds capacity within the team to increase assessment skills in data interpretation, analysis, program evaluation, and other related skills

WHAT THE SPECIALISTS DO:  
Work within and support their local Public Health Offices, engage with their local communities to address health priorities through the development of policy, supporting health councils, and implementing special projects and grants

WHAT THE COORDINATORS DO:  
Assure coordination of community health improvement activities with DOH by assessing community readiness, assist with provision and interpretation of data, identify local partners and include them in the planning and implementation of regional and state initiatives
