NMDOH • NORTHEAST REGION •

Health Promotion Team

We Connect The Dots

Mission Statement
We exist to empower and mobilize our diverse communities to create positive and lasting solutions to the public health issues they face, as well as locate resources and assist with health initiative development.

Core Values
➢ Positive & Dynamic Teamwork
➢ Building Relationships
➢ Community Empowerment
➢ Respect for a Variety of Organizational Processes
➢ Flexibility within Our Role in Our Communities

Health Promotion Team Vision
Engaged communities striving for a healthy and happy life span for all people in the state of New Mexico.

What Does The Northeast Region Health Promotion Team Do?
• Works within their local Public Health Offices
• Serves as the connection between the region and other NMDOH staff and their local communities
• Performs community-based health promotion in the region through collaboration with community health councils, coalitions, and other networks
• Accesses resources and funding for their communities
• Creates health literacy materials and performs trainings
• Links the community to data resources, evidence-based interventions and programs
• Provides hands-on support and technical assistance to local community partners with community health assessments and other health initiatives
• Facilitates open communication between organizations
• Engages with advocacy and policy development around community and state-wide health issues

Community Partners We Work With:
Local Public Health Offices, Community Health Councils, Tribal Health Councils, School Health Advisory Councils (SHACs), Community Organizations, and many more!
