Guidance for Face to Face Clinical Sessions for Specialized Therapies in the Mi Via Waiver
August 10, 2020

In addition to the DDSD Therapy (OT, PT, SLP) and Behavior Support Consultant (BSC)
Requirements for conducting essential health care face to face clinical sessions using COVID-19
Safe Practices effective August 1, 2020, specialized therapies available through the Mi Via
Waiver are also included. Mi Via specialized therapies are:

- Acupuncture
- Biofeedback
- Chiropractic
- Cognitive rehabilitation therapy
- Hippotherapy
- Massage therapy
- Naprapathy
- Native American healing therapies
- Play Therapy

It is the expectation that specialized therapies occur in the participant’s home, when applicable,
or in locations that do not violate any current Public Health Orders. Please see the attached
DDSD requirements for Therapy (OT, PT, SLP) and Behavior Support Consultant (BSC)
Requirements for conducting essential health care face to face clinical sessions using COVID-19
Safe Practices effective August 1, 2020 and apply to the Mi Via specialized therapies in the
same manner.
