This law offers protection from arrest or charges if 911 is called or if someone is taken to the hospital for an overdose.

This law will not protect someone if:

⇒ They have warrants.
⇒ They are on probation or parole.
⇒ There are scales, baggies, lots of cash, etc. or it looks like dealing is occurring.
⇒ There is evidence of any other crime; such as driving drunk or high, weapons possession, or violence.

This law will not protect someone if:

⇒ They have warrants.
⇒ They are on probation or parole.
⇒ There are scales, baggies, lots of cash, etc. or it looks like dealing is occurring.
⇒ There is evidence of any other crime; such as driving drunk or high, weapons possession, or violence.

**CALLING 911**

Quiet the scene, be calm, speak clearly, & do not argue.

Tell 911:
- Exact address or location (i.e. street corner), repeat;
- Person is unconscious or person is not breathing; and,
- If you are the only person there, put the phone down and help the person (naloxone & mouth to mouth breathing).

**You do not have to tell 911:**
- Your name;
- Substances were used; and,
- An overdose is occurring.

Stay with the person until paramedics arrive. Then, tell them what you know.

If you do not feel comfortable staying after calling 911, leave:
- Door open/move person outside;
- Them in the Recovery Position; and,
- Any used naloxone in plain sight.

For contact information and a list of programs and service times, please visit: [www.nmhivguide.org](http://www.nmhivguide.org)
