<td>Discussion</td>
<td>A goal is to review the specific design content related to the work done by and recommendations made by your committee and workgroups. Review and refer specifically to slide(s) numbered: 27-29 and others. The emphasis, at this point, is to refine and/or clarify input and recommendations already made, rather than to provide more recommendations. We hope the questions below help guide you.</td>

| #1: Does the current version of the HSI design adequately incorporate the recommendations made by and the work done by this committee? If not, please describe what needs refining or changing. | • On Slide 28, Strategy 7, #1: should read “Build a network of culturally-sensitive, multi-disciplinary…”  
• Same slide, #1, combine the first and 4th bullets—enhance the patient experience and help providers connect to resources  
• Enhance care coordination with use of EMS personnel  
• 3rd bullet—Utilize technology and IT to improve access to care and improve workforce competencies, including, but not limited to…  
• In slide 29, include “adequate loan payments” |                      |
<p>| #2: Are there any components or factors that have not been considered or reflected in the design that are important to your committee’s specific area of expertise or interest? If so, what are they? (Again, refer to slide(s) numbered 27-29 and others) | No major comments |                      |</p>

2. Add to #4, bullet 1: “nurses and other providers”

4. Same site as above, 4th bullet: “Utilize telehealth...”  
5. Same slide, #5—delete “National Health Service Corps” in this statement.
