

August 30, 2018

The comprehensive rate study is beginning! The vendor agency that was awarded the rate study contract is Public Consulting Group (PCG). This rate study will include the traditional Developmental Disabilities (DD), Mi Via (MV) and Medically Fragile (MF) Waivers.

Please save the date and time for a face-to-face kick-off meeting with PCG on September 25, 2018 from 1:00 – 4:00. The kick-off meeting is for providers and interested parties. It will take place in Albuquerque, at a location still to be determined. I encourage you to attend to learn about PCG's background, the project overview and schedule, communication plan, stakeholder participation and the provider survey.

Additionally, the DDS website will provide up to date information throughout the rate study process to keep everyone informed of meetings, trainings/webinars and other information critical to the success of this important project.

It is crucial that we all work together to achieve a successful outcome that is so integral to the mission of our waivers. Please stay informed and actively participate throughout the process. DDS looks forward to working cooperatively with all providers to supply PCG with the information they will need to build the most accurate rates for our system.

Sincerely,

Jim Copeland
Director
