Definitions for Family Planning Program Progress Report Community Education and Outreach

Community education refers to information that is provided with the intent of educating participants about a specific content area (male responsibility, reproductive health issues, healthy relationships, STIs or contraception/FP services).

Community outreach refers to information that is provided with the intent of increasing awareness about local public health services and the Family Planning Program. Events may occur at conferences, health fairs and/or teen dances. Some examples of how this may be accomplished includes:

- advertising in a local paper;
- running Public Service Announcements on the radio;
- distributing flyers at local businesses, health fairs, etc.;
- information booth at a health fair; or
- telling people where to receive clinical FP services after having given them an educational presentation on FP and/or STDs.

Hard to reach population: A group of people who often face barriers to accessing health services. This includes:

- teens
- homeless
- males
- migrants
- incarcerated
- undocumented
- substance abusers
- uninsured

Notes:

To access the Community Education and Outreach survey, please use the appropriate link provided each month by the Family Planning Program. This link will be provided to Nurse Managers and DNS via email.

If no education or outreach activities are conducted in a month, then the Nurse Manager or DNS must complete one report at the end of each month that states no activities were conducted and the reason why.

If you have any questions, please contact the Family Planning Program at 505-476-8882.
