Hello Sheila,

My comments on this proposed rule change request is that this hearing should be postponed until the Legislature has time to weigh in, via developing their own proposed changes and then holding committee hearings, and adoption by the full House and Senate. To seek to make this emergency rule permanent, is quite severe, especially since there has been no public debate and almost no dissemination to the public and media about this proposed change.

Our Governor and her current administration have seized too much power during this public health situation and it is time to dial back that power, not add to it.

Thank you,

Amy Dunlap
