Provider: Angel Care of New Mexico - Southwest Region
Address: 151 S. Walnut Ste. C-1
State/Zip: Las Cruces, New Mexico 88001

E-mail Address: angela@angelcarenm.net

CC: Jerry Ledesma, Boardchair
E-mail Address: Jerry@angelcarenm.net

Region: Southwest
Verification Survey Date: December 9 - 10, 2009
Original Survey Date: August 11 - 12, 2008
Program Surveyed: Developmental Disabilities Waiver
Service Surveyed: Community Living (Supported Living & Family Living) & Community Inclusion (Adult Habilitation, Supported Employment & Community Access)

Survey Type: Verification
Team Leader: Valerie V. Valdez, MS, Healthcare Program Manager/Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau

Team Members: Crystal Lopez-Beck, BA, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau & Stephanie Martinez de Berenger, MPA, Division of Health Improvement/Quality Management Bureau

Ms. Ledesma,

The Division of Health Improvement Quality Management Bureau has completed a Plan of Correction Follow-up survey of the services identified above. The purpose of the survey was to determine compliance with your Plan of Correction submitted to DHI/DDSD regarding the Routine Survey on **August 11 - 12, 2008**.

These findings will be reviewed by the DOH – Internal Review Committee during an upcoming review meeting. The findings are attached.

Request for Informal Reconsideration of Findings (IRF):

If you disagree with a determination of noncompliance (finding) you have 10 working days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

QMB Deputy Bureau Chief
5301 Central Ave NE Suite #400
Albuquerque, NM 87108
Attention: IRF request

A request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 working days. Providers may not appeal the nature or interpretation of the standard or regulation, the team composition, sampling methodology or the Scope and Severity of the finding.

“Assuring safety and quality of care in New Mexico’s health facilities and community-based programs.”

David Rodriguez, Division Director • Division of Health Improvement

Division of Health Improvement • Quality Management Bureau • 5301 Central Ave NE • Suite 400 • Albuquerque, New Mexico 87108
(505) 222-8633 • FAX: (505) 222-8661

DHI Quality Review Survey Report – Angel Care of New Mexico - Southwest Region – December 9 - 10, 2009

If the IRF approves the change or removal of a finding, you will be advised of any changes.

This IRF process is separate and apart from the Informal Dispute Resolution (IDR) and Fair Hearing Process for Sanctions from DOH.

Please call the Team Leader at 505-222-8688, if you have questions about the survey or the report. Thank you for your cooperation and for the work you perform.

Sincerely,

Valerie V. Valdez, MS
Team Lead/Healthcare Program Manager/Healthcare Surveyor
Division of Health Improvement
Quality Management Bureau

HSD - Medical Assistance Division

QMB Scope and Severity Matrix of survey results

Each deficiency in your Report of Findings is scored on a Scope and Severity Scale. The culmination of each deficiency's Scope and Severity is used to determine degree of compliance to standards and regulations and level of QMB Certification.

			SCOPE		
			Isolated 01% - 15%	Pattern 16% - 79%	Widespread 80% - 100%
SEVERITY	High Impact	Immediate Jeopardy to individual health and or safety	J.	K.	L.
		Actual harm	G.	H.	I.
	Medium Impact	No Actual Harm Potential for more than minimal harm	D.	E.	F. (3 or more)
		D. (2 or less)	F. (no conditions of participation)		
	Low Impact	No Actual Harm Minimal potential for harm.	A.	B.	C.

Scope and Severity Definitions:

Key to Scope scale:

Isolated:

A deficiency that is limited to 1% to 15% of the sample, usually impacting no more than one or two individuals in the sample.

Pattern:

A deficiency that impacts a number or group of individuals from 16% to 79% of the sample is defined as a pattern finding. Pattern findings suggest the need for system wide corrective actions.

Widespread:

A deficiency that impacts most or all (80% to 100%) of the individuals in the sample is defined as widespread or pervasive. Widespread findings suggest the need for system wide corrective actions as well as the need to implement a Continuous Quality Improvement process to improve or build infrastructure. Widespread findings must be referred to the Internal Review Committee for review and possible actions or sanctions.

Key to Severity scale:

Low Impact Severity: (Blue)

Low level findings have no or minimal potential for harm to an individual. Providers that have no findings above a "C" level may receive a "Quality" Certification approval rating from QMB.

Medium Impact Severity: (Tan)

Medium level findings have a potential for harm to an individual. Providers that have no findings above a "F" level and/or no more than two F level findings and no F level Conditions of Participation may receive a "Merit" Certification approval rating from QMB.

High Impact Severity: (Green or Yellow)

High level findings are when harm to an individual has occurred. Providers that have no findings above "I" level may only receive a "Standard" Approval rating from QMB and will be referred to the IRC.

High Impact Severity: (Yellow)

"J, K, and L" Level findings:

This is a finding of Immediate Jeopardy. If a provider is found to have "I" level findings or higher, with an outcome of Immediate Jeopardy, including repeat findings or Conditions of Participation they will be referred to the Internal Review Committee.

The QMB Approval Rating

The QMB approval rating is the provider incentive to encourage quality service and correlates the review outcome with the QMB review frequency and its recommendation to DDS to determine the length of the provider agreement. The "Approval rating" is based on the Scope and Severity of the review findings. There are five levels of "Approval" that a provider may receive. They are:

"Quality" Approval Rating:

The QMB DD Manager will review the Report of Findings and determine if the provider qualifies for a "Quality" Rating. To qualify for a QMB "Quality" rating of approval and a three (3) year QMB review cycle and provider agreement recommendation, the provider must not have any findings that are a condition of participation and no findings of "F" level or higher on the Scope and Severity Matrix with no more than three (3) D or E level findings.

"Merit" Approval Rating:

The QMB DD Manager will review the Report of Findings and determine if the provider qualifies for a "Merit" Rating. To qualify for a QMB "Merit" rating of approval and a two (2) year QMB review cycle and provider agreement recommendation, the provider must not have more than three (3) findings that are a condition of participation and no more than three (3) "F" level findings with no findings of a "G" level or higher on the Scope and Severity Matrix and no more than six (6) D or E level findings.

"Standard" Approval Rating:

The QMB DD Manager will review the Report of Findings and determine if the provider qualifies for a "Standard" Rating. To qualify for a QMB "Standard" rating of approval and a one (1) year QMB review cycle and provider agreement recommendation, the provider must not have more than six (6) findings that are a condition of participation and no more than six (6) "F" level findings with no findings of a "G" level or higher on the Scope and Severity Matrix and no more than six (6) D or E level findings.

"Sub-Standard" Approval Rating:

The QMB DD Manager will review the Report of Findings and determine if the provider has "Sub-standard" performance. To qualify for a QMB "Sub-Standard" rating of approval and a three to six month QMB review cycle, with a referral to the Internal Review Committee and provider agreement recommendation, the provider may have any of the following findings:

- seven (7) or more findings that are a condition of participation
- seven (7) or more "F" level findings
- any findings of a "G" level or higher
- nine (9) or more D or E level findings

A referral to the IRC is required for any "Sub-standard" rating. Depending upon the egregious nature of the findings the IRC shall take appropriate sanction actions up to and including contract termination.

"Provisional" Approval Rating:

New DD service providers may qualify for a QMB "Provisional" Approval Rating upon successfully completing their initial QMB Quality Survey.

The QMB DD Manager will review the Report of Findings and determine if the provider has achieved at least a standard rating of approval. If successful, the provider may receive a one (1) year contract extension. QMB will notify the DDS Contract unit of the "Provisional" approval rating.

Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

Introduction:

Throughout the process, surveyors are openly communicating with providers. Open communication means that surveyors have clarified issues and/or requested missing information before completing the review. Regardless, there may still be instances where the provider disagrees with a specific finding.

To informally dispute a finding the provider must request in writing an Informal Reconsideration of the Finding (IRF) to the QMB Deputy Bureau Chief **within 10 working days** of receipt of the final report.

The written request for an IRF **must be completed on the QMB Request for Informal Reconsideration of Finding Form** (available on the QMB website: <http://dhi.health.state.nm.us/qmb>) and must specify in detail the request for reconsideration and why the finding is inaccurate. **The IRF request must include all supporting documentation or evidence that was not previously reviewed during the survey process.**

The following limitations apply to the IRF process:

- The request for an IRF and all supporting evidence must be received in 10 days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed by the survey team.
- Providers must continue to complete their plan of correction during the IRF process
- Providers may not request an IRF to challenge the Scope and Severity of a finding.
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition
- Providers may not request an IRF to challenge the QMB Quality Approval Rating and the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not made within 10 working days of receiving the report and does not include all supporting documentation or evidence to show compliance with the standards and regulations.

QMB has 30 working days to complete the review and notify the provider of the decision. The request will be reviewed by the IRF committee. The Provider will be notified in writing of the ruling, no face to face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. **Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status.** If a finding is successfully reconsidered, it will be noted and will be removed or modified from the report. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

Administrative Review Process:

If a Provider desires to challenge the decision of the IRF committee they may request an Administrative Review by the DHI and DDSD Director. The Request must be made in writing to the QMB Bureau Chief and received within 5 days of notification from the IRF decision.

Regarding IRC Sanctions:

The Informal Reconsideration of the Finding process is a separate process specific to QMB Survey Findings and should not be confused with any process associated with IRC Sanctions.

If a Provider desires to Dispute or Appeal an IRC Sanction that is a separate and different process. Providers may choose the Informal Dispute Resolution Process or the Formal Medicaid Fair Hearing Process to dispute or appeal IRC sanctions, please refer to the DOH Sanction policy and section 39 of the provider contract agreement.
