Scoring Modified as result of Pilot 1 9/25/2018

Date: July 26, 2018
To: Lisa Swanson, Executive Director
Provider: Southwest Services for The Deaf
Address: 2202 Menaul Blvd. NE, Suite A
State/Zip: Albuquerque, New Mexico 87107
E-mail Address: lisawsd@gmail.com
Region: Metro
Survey Date: July 9 - 10, 2018
Program Surveyed: Developmental Disabilities Waiver
Service Surveyed: 2012: Customized Community Supports
Survey Type: Routine
Team Leader: Kandis Gomez, AA, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau
Team Members: Monica Valdez, BS, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau

Dear Ms. Swanson;

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider agreements. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

**Determination of Compliance:**

The Division of Health Improvement, Quality Management Bureau has determined your agency is in:

**Non-Compliance:** This determination is based on noncompliance with 17 or more Standard Level Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any tag or any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags (refer to Attachment D for details). The attached QMB Report of Findings indicates Standard Level and Condition of Participation Level deficiencies identified and requires completion and implementation of a Plan of Correction.

**DIVISION OF HEALTH IMPROVEMENT**

5301 Central Avenue NE, Suite 400 • Albuquerque, New Mexico • 87108

QMB Report of Findings – Southwest Services for the Deaf, Inc. – Metro – July 9 - 10, 2018

Survey Report #: Q.19.1.DDW.D4238.5.RTN.01.18.212
The following tags are identified as Condition of Participation Level Deficiencies:

- Tag # 1A08.3 Administrative Case File: Individual Service Plan/ISP Components
- Tag # 1A32 Administrative Case File: Individual Service Plan Implementation
- Tag # 1A20 Direct Support Personnel Training
- Tag # 1A22 Agency Personnel Competency
- Tag # 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- Tag # 1A15.2 Administrative Case File: Healthcare Documentation (Therap and Required Plans)
- Tag # 1A31 Client Rights/Human Rights

The following tags are identified as Standard Level Deficiencies:

- Tag # 1A08 Administrative Case File (other required documents)
- Tag # 1A38 Living Care Arrangement/Community Inclusion Reporting Requirements
- Tag # 1A31.2 Human Rights Committee Composition

**Plan of Correction:**

The attached Report of Findings identifies the deficiencies found during your agency’s on-site compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the receipt of this letter.

You were provided information during the exit meeting portion of your on-site survey. Please refer to this information (Attachment A) for specific instruction on completing your Plan of Correction. At a minimum your Plan of Correction should address the following for each Tag cited:

**Corrective Action for Current Citation:**

- How is the deficiency going to be corrected? (i.e. obtained documents, retrain staff, individuals and/or staff no longer in service, void/adjusts completed, etc.) This can be specific to each deficiency cited or if possible an overall correction, i.e. all documents will be requested and filed as appropriate.

**On-going Quality Assurance/Quality Improvement Processes:**

- What is going to be done on an ongoing basis? (i.e. file reviews, etc.)
- How many individuals is this going to effect? (i.e. percentage of individuals reviewed, number of files reviewed, etc.)
- How often will this be completed? (i.e. weekly, monthly, quarterly, etc.)
- Who is responsible? (responsible position within your agency)
- What steps will be taken if issues are found? (i.e. retraining, requesting documents, filing ROR, etc.)
- How is this integrated in your agency’s QIS, QI Committee reviews and annual report?

**Submission of your Plan of Correction:**

Please submit your agency’s Plan of Correction in the available space on the two right-hand columns of the Report of Findings. *(See attachment “A” for additional guidance in completing the Plan of Correction).*

Within 10 business days of receipt of this letter your agency Plan of Correction must be submitted to the parties below:

1. Quality Management Bureau, Attention: Amanda Castaneda, Plan of Correction Coordinator  
   1170 North Solano Suite D Las Cruces, New Mexico 88001

2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

Upon notification from QMB that your Plan of Correction has been approved, you must implement all remedies and corrective actions to come into compliance. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as your POC approval and all remedies must be completed within 45 business days of the receipt of this letter.
Failure to submit your POC within the allotted 10 business days or complete and implement your Plan of Correction within the total 45 business days allowed may result in the imposition of a $200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

**Billing Deficiencies:**
If you have deficiencies noted in this report of findings under the Service Domain: Medicaid Billing/Reimbursement, you must complete a “Void/Adjust” claim or remit the identified overpayment via a check within 30 calendar days of the date of this letter to HSD/OIG/PUI, though this is not the preferred method of payment. If you choose to pay via check, please include a copy of this letter with the payment. Make the check payable to the New Mexico Human Services Department and mail to:

Attention: Lisa Medina-Lujan  
HSD/OIG  
Program Integrity Unit  
2025 S. Pacheco Street  
Santa Fe, New Mexico 87505

Or if using UPS, FedEx, DHL (courier mail) send to physical address at:

Attention: Lisa Medina-Lujan  
HSD/OIG  
Program Integrity Unit  
1474 Rodeo Road  
Santa Fe, New Mexico 87505

Please be advised that there is a one-week lag period for applying payments received by check to Void/Adjust claims. During this lag period, your other claim payments may be applied to the amount you owe even though you have sent a refund, reducing your payment amount. For this reason, we recommend that you allow the system to recover the overpayment instead of sending in a check.

**Request for Informal Reconsideration of Findings (IRF):**
If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

Request for Informal Reconsideration of Findings  
5301 Central Ave NE Suite #400  
Albuquerque, NM 87108  
Attention: IRF request/QMB

See Attachment “C” for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 total business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction). Providers may not appeal the nature or interpretation of the standard or regulation, the team composition or sampling methodology. If the IRF approves the modification or removal of a finding, you will be advised of any changes.

Please call the Plan of Correction Coordinator Amanda Castaneda at 575-373-5716 if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

Kandis Gomez, AA

Provider Instructions for Completing the QMB Plan of Correction (POC) Process

Introduction:
After a QMB Compliance Survey, your QMB Report of Findings will be sent to you via e-mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued deficiencies and non-compliance.

Agencies must submit their Plan of Correction within ten (10) business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 business days may be referred to the DDSD Regional Office for purposes of contract management or the Internal Review Committee [IRC] for possible actions or sanctions).

Agencies must fully implement their approved Plan of Correction within 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the date they receive the QMB Report of Findings. Providers who fail to complete a POC within the 45-business days allowed will be referred to the IRC for possible actions or sanctions.

If you have questions about the Plan of Correction process, call the Plan of Correction Coordinator at 575-373-5716 or email at AmandaE.Castaneda@state.nm.us. Requests for technical assistance must be requested through your Regional DDSD Office.

The POC process cannot resolve disputes regarding findings. If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) business days of receiving your report. Please note that you must still submit a POC for findings that are in question (see Attachment C).

Instructions for Completing Agency POC:

Required Content
Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice cited to prevent recurrence and information that ensures the regulation cited comes into and remains in compliance. The remedies noted in your POC are expected to be added to your Agency’s required, annual Quality Assurance (QA) Plan.

If a deficiency has already been corrected since the on-site survey, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The following details should be considered when developing your Plan of Correction:

The Plan of Correction must address each deficiency cited in the Report of Findings unless otherwise noted with a “No Plan of Correction Required statement.” The Plan of Correction must address the five (5) areas listed below:

1. How the specific and realistic corrective action will be accomplished for individuals found to have been affected by the deficient practice.
2. How the agency will identify other individuals who have the potential to be affected by the same deficient practice, and how the agency will act to protect those individuals in similar situations.
3. What Quality Assurance measures will be put into place and what systemic changes made to ensure the deficient practice will not recur.
4. Indicate how the agency plans to monitor its performance to make certain solutions are sustained. The agency must develop a QA plan for ensuring correction is achieved and sustained. This QA plan must be implemented, and the corrective action is evaluated for its effectiveness. The plan of correction is integrated into the agency quality assurance system; and
5. Include dates when corrective actions will be completed. The corrective action completion dates must be acceptable to the State.

The following details should be considered when developing your Plan of Correction:

- Details about how and when Individual Served, agency personnel and administrative and service delivery site files are audited by agency personnel to ensure they contain required documents;
- Information about how medication administration records are reviewed to verify they contain all required information before they are distributed to service sites, as they are being used, and after they are completed;
- Your processes for ensuring that all required agency personnel are trained on required DDSD required trainings;
- How accuracy in billing/reimbursement documentation is assured;
- How health, safety is assured;
- For Case Management providers, how Individual Service Plans are reviewed to verify they meet requirements, how the timeliness of level of care (LOC) packet submissions and consumer visits are tracked;
- Your process for gathering, analyzing and responding to quality data indicators; and,
- Details about Quality Targets in various areas, current status, analyses about why targets were not met, and remedies implemented.

Note: Instruction or in-service of staff alone may not be a sufficient plan of correction. This is a good first step toward correction, but additional steps must be taken to ensure the deficiency is corrected and will not recur.

Completion Dates

- The plan of correction must include a completion date (entered in the far right-hand column) for each finding. Be sure the date is realistic in the amount of time your Agency will need to correct the deficiency; not to exceed 45 total business days.
- Direct care issues should be corrected immediately and monitored appropriately.
- Some deficiencies may require a staged plan to accomplish total correction.
- Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

Initial Submission of the Plan of Correction Requirements

1. The Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
2. For questions about the POC process, call the POC Coordinator, Amanda Castaneda at 575-373-5716 or email at AmandaE.Castaneda@state.nm.us for assistance.
3. For Technical Assistance (TA) in developing or implementing your POC, contact your Regional DDSD Office.
4. Submit your POC to Amanda Castaneda, POC Coordinator in any of the following ways:
   a. Electronically at AmandaE.Castaneda@state.nm.us (preferred method)
   b. Fax to 575-528-5019, or
   c. Mail to POC Coordinator, 1170 North Solano Ste D, Las Cruces, New Mexico 88001
5. Do not submit supporting documentation (evidence of compliance) to QMB until after your POC has been approved by the QMB.
6. QMB will notify you when your POC has been "approved” or “denied.”
   a. During this time, whether your POC is “approved," or “denied,” you will have a maximum of 45-business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
   b. If your POC is denied, it must be revised and resubmitted as soon as possible, as the 45-business day limit is in effect.
   c. If your POC is denied a second time your agency may be referred to the Internal Review Committee.
   d. You will receive written confirmation when your POC has been approved by QMB and a final deadline for completion of your POC.
   e. Please note that all POC correspondence will be sent electronically unless otherwise requested.
7. Failure to submit your POC within 10 business days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.
POC Document Submission Requirements
Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

1. Your internal documents are due within a maximum of 45-business days of receipt of your Report of Findings.
2. It is preferred that you submit your documents via USPS or other carrier (scanned and saved to CD/DVD disc, flash drive, etc.). If documents containing HIPAA Protected Health Information (PHI) documents must be submitted through S-Comm (Therap), Fax or Postal System, do not send PHI directly to NMDOH email accounts. If the documents do not contain protected Health information (PHI) then you may submit your documents electronically scanned and attached to e-mails.
3. All submitted documents must be annotated; please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
4. Do not submit original documents; Please provide copies or scanned electronic files for evidence. Originals must be maintained in the agency file(s) per DDSD Standards.
5. In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
6. When billing deficiencies are cited, you must provide documentation to justify billing and/or void and adjust forms submitted to Xerox State Healthcare, LLC for the deficiencies cited in the Report of Findings.

Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator, prior to the due date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.
The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency’s operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency’s overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

**Conditions of Participation (CoPs)**

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called non-negotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

**Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:**

**Service Domain: Service Plan: ISP Implementation -** Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

- **Potential Condition of Participation Level Tags, if compliance is below 85%:**
  - 1A08.3 – Administrative Case File: Individual Service Plan / ISP Components
  - 1A32 – Administrative Case File: Individual Service Plan Implementation
  - LS14 – Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
  - IS14 – CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

**Service Domain: Qualified Providers -** The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

- **Potential Condition of Participation Level Tags, if compliance is below 85%:**
  - 1A20 - Direct Support Personnel Training
Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):
- 1A25.1 – Caregiver Criminal History Screening
- 1A26.1 – Consolidated On-line Registry Employee Abuse Registry

Service Domain: Health, Welfare and Safety - The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

Potential Condition of Participation Level Tags, if compliance is below 85%:
- 1A08.2 – Administrative Case File: Healthcare Requirements & Follow-up
- 1A09 – Medication Delivery Routine Medication Administration
- 1A09.1 – Medication Delivery PRN Medication Administration
- 1A15.2 – Administrative Case File: Healthcare Documentation (Therap and Required Plans)

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):
- 1A05 – General Requirements / Agency Policy and Procedure Requirements
- 1A07 – Social Security Income (SSI) Payments
- 1A09.2 – Medication Delivery Nurse Approval for PRN Medication
- 1A15 – Healthcare Documentation - Nurse Availability
- 1A31 – Client Rights/Human Rights
- LS25.1 – Residential Reqts. (Physical Environment - Supported Living / Family Living / Intensive Medical Living)
Guidelines for the Provider
Informal Reconsideration of Finding (IRF) Process

Introduction:
Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means surveyors have clarified issues and/or requested missing information before completing the review through the use of the signed/dated “Document Request,” or “Administrative Needs,” etc. forms. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

Instructions:
1. The Informal Reconsideration of the Finding (IRF) request must be received in writing to the QMB Deputy Bureau Chief within 10 business days of receipt of the final Report of Findings.
2. The written request for an IRF must be completed on the QMB Request for Informal Reconsideration of Finding form available on the QMB website: https://nmhealth.org/about/dhi/cbp/irf/
3. The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
4. The IRF request must include all supporting documentation or evidence.
5. If you have questions about the IRF process, email the IRF Chairperson, Crystal Lopez-Beck at Crystal.Lopez-Beck@state.nm.us for assistance.

The following limitations apply to the IRF process:
- The written request for an IRF and all supporting evidence must be received within 10 business days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process.
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the DHI/QMB determination of compliance or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not received within 10 business days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

The IRF Committee will review the request; the Provider will be notified in writing of the ruling; no face-to-face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status. If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.
QMB Determinations of Compliance

Compliance:
The QMB determination of Compliance indicates that a provider has either no deficiencies found during a survey or has no deficiencies at the Condition of Participation Level. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals’ health and safety. To qualify for a determination of Compliance, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

Partial-Compliance with Standard Level Tags:
The QMB determination of Partial-Compliance with Standard Level Tags indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals’ health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

1. Your Report of Findings includes 16 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected in any tag.
2. Your Report of Findings includes 17 or more Standard Level Tags with between 50% to 74% of the survey sample affected in any tag.

Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:
The QMB determination of Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags indicates that a provider is out of compliance with one to five (1 – 5) Condition of Participation Level Tags. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals’ health and safety.

Non-Compliance:
The QMB determination of Non-Compliance indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals’ health and safety. There are three ways an agency can receive a determination of Non-Compliance:

1. Your Report of Findings includes 17 or more Standard Level Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any tag.
2. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

QMB Report of Findings – Southwest Services for the Deaf, Inc. – Metro – July 9 - 10, 2018

Survey Report #: Q.19.1.DDW.D4238.5.RTN.01.18.212
4. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.

5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.

7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

20.5.1 Individual Data Form (IDF):
The Individual Data Form provides an overview of demographic information as well as other key personal, programmatic, insurance, and health related information. It lists medical information; assistive technology or adaptive equipment; diagnoses; allergies; information about whether a guardian or advance directives are in place; information about behavioral and health related needs; contacts of Provider Agencies and team members and other critical information. The IDF automatically loads information into other fields and forms and must be complete and kept current. This form is initiated by the CM. It must be opened and continuously updated by Living Supports, CCS-Group, ANS, CIHS and case
management when applicable to the person in order for accurate data to auto populate other documents like the Health Passport and Physician Consultation Form. Although the Primary Provider Agency is ultimately responsible for keeping this form current, each provider collaborates and communicates critical information to update this form.

Chapter 3: Safeguards
3.1.2 Team Justification Process: DD Waiver participants may receive evaluations or reviews conducted by a variety of professionals or clinicians. These evaluations or reviews typically include recommendations or suggestions for the person-guardian or the team to consider. The team justification process includes:
1. Discussion and decisions about non-health related recommendations are documented on the Team Justification form.
2. The Team Justification form documents that the person/guardian or team has considered the recommendations and has decided:
   a. to implement the recommendation;
   b. to create an action plan and revise the ISP, if necessary; or
   c. not to implement the recommendation currently.
3. All DD Waiver Provider Agencies participate in information gathering, IDT meeting attendance, and accessing supplemental resources if needed and desired.
4. The CM ensures that the Team Justification Process is followed and complete.

Chapter 6 (CCS) 3. Agency Requirements:
### G. Consumer Records Policy:

All Provider Agencies shall maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.

**ISP Teaching and Support Strategies:**
- **Individual #1** - TSS not found for the following:
  - Work/Learn Outcome Statement / Action Steps:
    - “…will choose one activity for the group to participate in.”
    - “…will learn appropriate social greetings/basics on friendship building while in the community.”
    - “…will take his camera to capture fun activities.”

**Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018**

**Chapter 6 Individual Service Plan:** The CMS requires a person-centered service plan for every person receiving HCBS. The DD Waiver’s person-centered service plan is the ISP.

**6.5.2 ISP Revisions:** The ISP is a dynamic document that changes with the person’s desires, circumstances, and need. IDT members must collaborate and request an IDT meeting from the CM when a need to modify the ISP arises. The CM convenes the IDT within ten days of receipt of any reasonable request to convene the team, either in person or through teleconference.

**6.6 DDSD ISP Template:** The ISP must be written according to templates provided by the DDSD. Both children and adults have designated ISP templates. The ISP template includes Vision Statements, Desired Outcomes, a meeting participant signature page, an Addendum A (i.e. an acknowledgement of receipt of specific information) and other elements depending on the age of the
individual. The ISP templates may be revised and reissued by DDSD to incorporate initiatives that improve person-centered planning practices. Companion documents may also be issued by DDSD and be required for use in order to better demonstrate required elements of the PCP process and ISP development. The ISP is completed by the CM with the IDT input and must be completed according to the following requirements:
1. DD Waiver Provider Agencies should not recommend service type, frequency, and amount (except for required case management services) on an individual budget prior to the Vision Statement and Desired Outcomes being developed.
2. The person does not require IDT agreement/approval regarding his/her dreams, aspirations, and desired long-term outcomes.
3. When there is disagreement, the IDT is required to plan and resolve conflicts in a manner that promotes health, safety, and quality of life through consensus. Consensus means a state of general agreement that allows members to support the proposal, at least on a trial basis.
4. A signature page and/or documentation of participation by phone must be completed.
5. The CM must review a current Addendum A and DHI ANE letter with the person and Court appointed guardian or parents of a minor, if applicable.

6.6.3 Additional Requirements for Adults:
Because children have access to other funding sources, a larger array of services are available to adults than to children through the DD Waiver. (See Chapter 7: Available Services and Individual Budget Development). The ISP Template for adults is also more extensive, including Action Plans, Teaching and Support
Strategies (TSS), Written Direct Support Instructions (WDSI), and Individual Specific Training (IST) requirements.

6.6.3.1 Action Plan: Each Desired Outcome requires an Action Plan. The Action Plan addresses individual strengths and capabilities in reaching Desired Outcomes. Multiple service types may be included in the Action Plan under a single Desired Outcome. Multiple Provider Agencies can and should be contributing to Action Plans toward each Desired Outcome.
   1. Action Plans include actions the person will take; not just actions the staff will take.
   2. Action Plans delineate which activities will be completed within one year.
   3. Action Plans are completed through IDT consensus during the ISP meeting.
   4. Action Plans must indicate under “Responsible Party” which DSP or service provider (i.e. Family Living, CCS, etc.) are responsible for carrying out the Action Step.

6.6.3.2 Teaching and Supports Strategies (TSS) and Written Direct Support Instructions (WDSI): After the ISP meeting, IDT members conduct a task analysis and assessments necessary to create effective TSS and WDSI to support those Action Plans that require this extra detail. All TSS and WDSI should support the person in achieving his/her Vision.

6.6.3.3 Individual Specific Training in the ISP: The CM, with input from each DD Waiver Provider Agency at the annual ISP meeting, completes the IST requirements section of the ISP form listing all training needs specific to the individual. Provider Agencies bring their proposed IST to the annual meeting. The IDT must reach a consensus about who needs to be
trained, at what level (awareness, knowledge or skill), and within what timeframe. (See Chapter 17.10 Individual-Specific Training for more information about IST.)

6.8 ISP Implementation and Monitoring: All DD Waiver Provider Agencies with a signed SFOC are required to provide services as detailed in the ISP. The ISP must be readily accessible to Provider Agencies on the approved budget. (See Chapter 20: Provider Documentation and Client Records.) CMs facilitate and maintain communication with the person, his/her representative, other IDT members, Provider Agencies, and relevant parties to ensure that the person receives the maximum benefit of his/her services and that revisions to the ISP are made as needed. All DD Waiver Provider Agencies are required to cooperate with monitoring activities conducted by the CM and the DOH. Provider Agencies are required to respond to issues at the individual level and agency level as described in Chapter 16: Qualified Provider Agencies.

Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.

Chapter 6 (CCS) 3. Agency Requirements:
G. Consumer Records Policy: All Provider Agencies shall maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.
**Tag # 1A32 Administrative Case File:**
Individual Service Plan Implementation

| Condition of Participation Level Deficiency  
(Upheld as result of Pilot 1) | NMAC 7.26.5.14 DEVELOPMENT OF THE INDIVIDUAL SERVICE PLAN (ISP) - CONTENT OF INDIVIDUAL SERVICE PLANS: Each ISP shall contain.  
A. Demographic information: The individual’s name, age, date of birth, important identification numbers (i.e., Medicaid, Medicare, social security numbers), level of care address, phone number, guardian information (if applicable), physician name and address, primary care giver or service provider(s), date of the ISP meeting (either annual, or revision), scheduled month of next annual ISP meeting, and team members in attendance.  
B. Long term vision: The vision statement shall be recorded in the individual’s actual words, whenever possible. For example, in a long-term vision statement, the individual may describe him or herself living and working independently in the community.  
C. Outcomes:  
(1) The IDT has the explicit responsibility of identifying reasonable services and supports needed to assist the individual in achieving the desired outcome and long-term vision. The IDT determines the intensity, frequency, duration, location and method of delivery of needed services and supports. All IDT members may generate suggestions and assist the individual in communicating and developing outcomes. Outcome statements shall also be written in the individual’s own words, whenever possible. Outcomes shall be prioritized in the ISP.  
(2) Outcomes planning shall be implemented in one or more of the four “life areas” (work or leisure activities, health or development of relationships) and address as appropriate home environment, vocational, educational, communication, self-care, leisure/social, community resource use, safety, psychological/behavioral and medical/health outcomes. The IDT shall assure that the outcomes After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur.  
Based on administrative record review, the Agency did not implement the ISP according to the timelines determined by the IDT and as specified in the ISP for each stated desired outcomes and action plan for 3 of 4 individuals.  
As indicated by Individuals ISP the following was found with regards to the implementation of ISP Outcomes:  
Customized Community Supports Data Collection/Data Tracking/Progress with regards to ISP Outcomes:  
Individual #1  
- According to the Work/Learn Outcome: Action Step for “…will actively participate in group discussion regarding scheduling activities for participation” is to be completed weekly. Evidence found indicated it was not being completed at the required frequency as indicated in the ISP for 3/2018 - 4/2018.  
- None found regarding: Work/Learn Outcome/Action Step: “…will choose one activity for the group to participate in” for 5/2018. Action step is to be completed weekly.  
- None found regarding: Work/Learn Outcome/Action Step: “…will actively participate in group discussion regarding scheduling activities for participation” for 5/2018. Action step is to be completed weekly.  
Provider:  
State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?):  

Provider:  
Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?):
in the ISP relate to the individual’s long-term vision statement. Outcomes are required for any life area for which the individual receives services funded by the developmental disabilities Medicaid waiver.

NMAC 7.26.5.16.C and D Development of the ISP. Implementation of the ISP. The ISP shall be implemented according to the timelines determined by the IDT and as specified in the ISP for each stated desired outcomes and action plan.

C. The IDT shall review and discuss information and recommendations with the individual, with the goal of supporting the individual in attaining desired outcomes. The IDT develops an ISP based upon the individual’s personal vision statement, strengths, needs, interests and preferences. The ISP is a dynamic document, revised periodically, as needed, and amended to reflect progress towards personal goals and achievements consistent with the individual’s future vision. This regulation is consistent with standards established for individual plan development as set forth by the commission on the accreditation of rehabilitation facilities (CARF) and/or other program accreditation approved and adopted by the developmental disabilities division and the department of health. It is the policy of the developmental disabilities division (DDD), that to the extent permitted by funding, each individual receive supports and services that will assist and encourage independence and productivity in the community and attempt to prevent regression or loss of current capabilities. Services and supports include specialized and/or generic services, training, education and/or treatment as determined by the IDT and documented in the ISP.

D. The intent is to provide choice and obtain opportunities for individuals to live, work and play with full participation in their communities. The following principles provide direction and purpose in planning for individuals with developmental disabilities.

- 5/2018. Action step is to be completed 1 time per month.
- None found regarding: Work/learn
  Outcome/Action Step: “…will learn appropriate social greetings/basics on friendship building while in the community” for 5/2018. Action step is to be completed weekly.
- None found regarding: Work/learn
  Outcome/Action Step: “…will take his camera to capture fun activities” for 3/2018 – 5/2018. Action step is to be completed 2 times per month.

Individual #2
- According to the Work/Learn Outcome: Action Step for “…will choose 2 words that she would like to learn by the end of the ISP” is to be completed weekly. Evidence found indicated it was not being completed at the required frequency as indicated in the ISP for 3/2018.
- None found regarding: Work/learn
  Outcome/Action Step: “…will practice the word she has learned” for 3/2018 – 5/2018. Action step is to be completed weekly.

Individual #3
- According to the Work/Learn Outcome: Action Step for “…will participate in activity discussion” is to be completed 3 times per week. Evidence found indicated it was not being completed at the required frequency as indicated in the ISP for 3/2018 – 4/2018.
- None found regarding: Work/learn
  Outcome/Action Step: “…will participate in activity discussion” for 5/2018. Action step is to be completed 3 times per week.
Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018

**Chapter 6: Individual Service Plan (ISP)**

**6.8 ISP Implementation and Monitoring:** All DD Waiver Provider Agencies with a signed SFOC are required to provide services as detailed in the ISP. The ISP must be readily accessible to Provider Agencies on the approved budget. (See Chapter 20: Provider Documentation and Client Records.) CMs facilitate and maintain communication with the person, his/her representative, other IDT members, Provider Agencies, and relevant parties to ensure that the person receives the maximum benefit of his/her services and that revisions to the ISP are made as needed. All DD Waiver Provider Agencies are required to cooperate with monitoring activities conducted by the CM and the DOH. Provider Agencies are required to respond to issues at the individual level and agency level as described in Chapter 16: Qualified Provider Agencies.

**Chapter 20: Provider Documentation and Client Records:**

**20.2 Client Records Requirements:** All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.

DD Waiver Provider Agencies are required to adhere to the following:

1. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.
2. Provider Agencies must have readily

- None found regarding: Work/learn Outcome/Action Step: “...will plan and attend the outing of his choice” for 5/2018. Action step is to be completed 1 time per month.
accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web-based system using computers or mobile devices is acceptable.

3. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.

4. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.

5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.

7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

**Chapter 19: Provider Reporting Requirements: 19.5 Semi-Annual Reporting:**

The semi-annual report provides status updates.
to life circumstances, health, and progress toward ISP goals and/or goals related to professional and clinical services provided through the DD Waiver. This report is submitted to the CM for review and may guide actions taken by the person’s IDT if necessary. Semi-annual reports may be requested by DDSD for QA activities.

Semi-annual reports are required as follows:

1. DD Waiver Provider Agencies, except AT, EMSP, Supplemental Dental, PRSC, SSE and Crisis Supports, must complete semi-annual reports.

2. A Respite Provider Agency must submit a semi-annual progress report to the CM that describes progress on the Action Plan(s) and Desired Outcome(s) when Respite is the only service included in the ISP other than Case Management, for an adult age 21 or older.

3. The first semi-annual report will cover the time from the start of the person’s ISP year until the end of the subsequent six-month period (180 calendar days) and is due ten calendar days after the period ends (190 calendar days).

4. The second semi-annual report is integrated into the annual report or professional assessment/annual re-evaluation when applicable and is due 14 calendar days prior to the annual ISP meeting.

5. Semi-annual reports must contain at a minimum written documentation of:
   a. the name of the person and date on each page;
   b. the timeframe that the report covers;
   c. timely completion of relevant activities from ISP Action Plans or clinical service goals during timeframe the report is covering;
   d. a description of progress towards Desired Outcomes in the ISP related to the service provided;

**CHAPTER 6 (CCS) 3. Agency Requirements:**

**I. Reporting Requirements:** Progress Reports:

Customized Community Supports providers must submit written status reports to the individual's Case Manager and other IDT members. When reports are developed in any language other than English, it is the responsibility of the provider to translate the reports into English. These reports are due at two points in time: a mid-cycle report due on day 190 of the ISP cycle and a second summary report due two weeks prior to the annual ISP meeting that covers all progress since the beginning of the ISP cycle up to that point. These reports must contain the following written documentation:

1. Semi-annual progress reports one hundred ninety (190) days following the date of the annual ISP, and 14 days prior to the annual IDT meeting:

   a. Identification of and implementation of a Meaningful Day definition for each
person served;

b. Documentation for each date of service delivery summarizing the following:

i. Choice based options offered throughout the day; and

ii. Progress toward outcomes using age appropriate strategies specified in each individual's action steps in the ISP, and associated support plans/WDSI.

c. Record of personally meaningful community inclusion activities;

d. Written updates, to the ISP Work/Learn Action Plan annually or as necessary due to change in work outcomes. These updates do not require an IDT meeting unless changes requiring team input need to be made; and

e. Data related to the requirements of the Performance Contract to DDSD quarterly.
### Service Domain: Qualified Providers

The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

### Tag # 1A20 Direct Support Personnel Training

#### Condition of Participation Level Deficiency

(Upheld as result of Pilot 1)

After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur.

Based on record review, the Agency did not ensure Orientation and Training requirements were met for 5 of 5 Direct Support Personnel.

Review of Direct Support Personnel training records found no evidence of the following required DOH/DDSD trainings and certification being completed:

- **First Aid:**
  - Not Found (#503)

- **CPR:**
  - Not Found (#503)

- **Assisting with Medication Delivery:**
  - Not Found (#500)
  - Expired (#501, 502, 504)

### 17.1.2 Training Requirements for Service Coordinators (SC):

Service Coordinators (SCs) refer to staff at agencies providing the following services: Supported Living, Family Living, Customized In-home Supports, Intensive Medical Living, Customized Community Supports, Community Integrated Employment, and Crisis Supports.

1. A SC must successfully:
   a. Complete IST requirements in accordance with the specifications described in the ISP of each person supported, and as outlined in the 17.10 Individual-Specific Training below.
   b. Complete training on DOH-approved ANE reporting procedures in accordance with NMAC 7.1.14.
   c. Complete training in universal requirements/guidelines.

2. Any staff being used in an emergency to fill in or cover a shift must have at a minimum the DDSD required core trainings and be on shift with a DSP who has completed the relevant IST.
precautions. The training materials shall meet Occupational Safety and Health Administration (OSHA) requirements.
d. Complete and maintain certification in First Aid and CPR. The training materials shall meet OSHA requirements/guidelines.
e. Complete relevant training in accordance with OSHA requirements (if job involves exposure to hazardous chemicals).
f. Become certified in a DDSD-approved system of crisis prevention and intervention (e.g., MANDT, Handle with Care, CPI) before using emergency physical restraint. Agency SC shall maintain certification in a DDSD-approved system if a person they support has a Behavioral Crisis Intervention Plan that includes the use of emergency physical restraint.
g. Complete and maintain certification in AWMD if required to assist with medications.
h. Complete training regarding the HIPAA.

2. Any staff being used in an emergency to fill in or cover a shift must have at a minimum the DDSD required core trainings.
Tag # 1A22  Agency Personnel Competency

Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018

Chapter 13: Nursing Services
13.2.11 Training and Implementation of Plans:
1. RNs and LPNs are required to provide Individual Specific Training (IST) regarding HCPs and MERPs.
2. The agency nurse is required to deliver and document training for DSP/DSS regarding the healthcare interventions/strategies and MERPs that the DSP are responsible to implement, clearly indicating level of competency achieved by each trainee as described in Chapter 17.10 Individual-Specific Training.

Chapter 17: Training Requirement
17.10 Individual-Specific Training: The following are elements of IST: defined standards of performance, curriculum tailored to teach skills and knowledge necessary to meet those standards of performance, and formal examination or demonstration to verify standards of performance, using the established DDSD training levels of awareness, knowledge, and skill.

Reaching an awareness level may be accomplished by reading plans or other information. The trainee is cognizant of information related to a person’s specific condition. Verbal or written recall of basic information or knowing where to access the information can verify awareness.

Reaching a knowledge level may take the form of observing a plan in action, reading a plan more thoroughly, or having a plan described by the author or their designee. Verbal or written recall or demonstration may verify this level of competence.

Condition of Participation Level Deficiency
(Upheld as result of Pilot 1)

After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur.

Based on interview, the Agency did not ensure training competencies were met for 2 of 5 Direct Support Personnel.

When DSP were asked, if they knew what the Individual’s health condition/ diagnosis or when the information could be found, the following was reported:

- DSP #502 stated, “No.” According to the individual’s ISP she is diagnosed with Mild Intellectual Disabilities, Asthma, Sleep Apnea, Osteopenia, Presbyopia, GERD, and Scoliosis associated with Myopathy and Dystonia. Staff did not discuss the listed diagnosis. (Individual #2)

- DSP #503 stated, “No, but I know she has been struggling with weight.” According to the individual’s ISP she is diagnosed with Impulse disorder, moderate MR, mood disorder, total deafness and allergic rhinitis. Staff did not discuss the listed diagnosis. (Individual #4)

When DSP were asked, if the Individual had any specific dietary and / or nutritional plans, the following was reported:

- DSP #502 stated, “No.” According to the individual’s ISP she requires a Nutritional Plan. (Individual #2)
Reaching a **skill level** involves being trained by a therapist, nurse, designated or experienced designated trainer. The trainer shall demonstrate the techniques according to the plan. Then they observe and provide feedback to the trainee as they implement the techniques. This should be repeated until competence is demonstrated. Demonstration of skill or observed implementation of the techniques or strategies verifies skill level competence. Trainees should be observed on more than one occasion to ensure appropriate techniques are maintained and to provide additional coaching/feedback. Individuals shall receive services from competent and qualified Provider Agency personnel who must successfully complete IST requirements in accordance with the specifications described in the ISP of each person supported.

1. IST must be arranged and conducted at least annually. IST includes training on the ISP Desired Outcomes, Action Plans, strategies, and information about the person’s preferences regarding privacy, communication style, and routines. More frequent training may be necessary if the annual ISP changes before the year ends.
2. IST for therapy-related WDSI, HCPs, MERPs, CARMPs, PBSA, PBSP, and BCIP, must occur at least annually and more often if plans change, or if monitoring by the plan author or agency finds incorrect implementation, when new DSP or CM are assigned to work with a person, or when an existing DSP or CM requires a refresher.
3. The competency level of the training is based on the IST section of the ISP.
4. The person should be present for and involved in IST whenever possible.
5. Provider Agencies are responsible for tracking of IST requirements.

- DSP #503 stated, “No, as staff we encourage her to walk and do exercise not just sitting. Have not got any plan for doctor yet.” Per the ISP the Individual is required to have a Nutritional Plan. (Individual #4)
6. Provider Agencies must arrange and ensure that DSP's are trained on the contents of the plans in accordance with timelines indicated in the Individual-Specific Training Requirements: Support Plans section of the ISP and notify the plan authors when new DSP are hired to arrange for trainings.

7. If a therapist, BSC, nurse, or other author of a plan, healthcare or otherwise, chooses to designate a trainer, that person is still responsible for providing the curriculum to the designated trainer. The author of the plan is also responsible for ensuring the designated trainer is verifying competency in alignment with their curriculum, doing periodic quality assurance checks with their designated trainer, and recertifying the designated trainer at least annually and/or when there is a change to a person's plan.
### Service Domain: Health and Welfare – The state, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

and

2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting:

   a. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman's terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation.

   b. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation.

   c. Providers support the person/guardian to make an informed decision.

   d. The decision made by the person/guardian during the meeting is accepted; plans are modified; and the IDT honors this health decision in every setting.

Chapter 20: Provider Documentation and Client Records:

20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The

Individual #1 - As indicated by the DDSD file matrix Vision Exams are to be conducted every other year. No evidence of exam was found.
contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary. DD Waiver Provider Agencies are required to adhere to the following:
1. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.
2. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable.
3. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.
4. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.
5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.
6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.
7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. The Physician Consultation form contains a list of all current medications.

Chapter 10: Living Care Arrangements (LCA) Living Supports-Supported Living: 10.3.9.6.1 Monitoring and Supervision
4. Ensure and document the following:
   a. The person has a Primary Care Practitioner.
   b. The person receives an annual physical examination and other examinations as recommended by a Primary Care Practitioner or specialist.
   c. The person receives annual dental check-ups and other check-ups as recommended by a licensed dentist.
   d. The person receives a hearing test as recommended by a licensed audiologist.
   e. The person receives eye
examinations as recommended by a licensed optometrist or ophthalmologist.

5. Agency activities occur as required for follow-up activities to medical appointments (e.g., treatment, visits to specialists, and changes in medication or daily routine).

10.3.10.1 Living Care Arrangements (LCA) Living Supports-IMLS:
10.3.10.2 General Requirements: 9. Medical services must be ensured (i.e., ensure each person has a licensed Primary Care Practitioner and receives an annual physical examination, specialty medical care as needed, and annual dental checkup by a licensed dentist).

Chapter 13 Nursing Services: 13.2.3 General Requirements:
1. Each person has a licensed primary care practitioner and receives an annual physical examination and specialty medical/dental care as needed. Nurses communicate with these providers to share current health information.

Chapter 6 (CCS) 3. Agency Requirements: G. Consumer Records Policy: All Provider Agencies shall maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.

5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.

7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

Chapter 3 Safeguards: 3.1.1 Decision Consultation Process (DCP): Health decisions are the sole domain of waiver participants, their guardians or healthcare decision makers. Participants and their healthcare decision makers can confidently make decisions that are compatible with their personal and cultural values. Provider Agencies are required to support the informed decision making of waiver participants by supporting access to medical consultation, information, and other available resources according to the following:

2. The DCP is used when a person or his/her guardian/healthcare decision maker has concerns, needs more information about health-related issues, or has decided not to follow all or part of an order, recommendation, or suggestion. This includes, but is not limited to:
   a. medical orders or recommendations from the Primary Care Practitioner, Specialists or other licensed medical or healthcare practitioners such as a Nurse Practitioner (NP or CNP), Physician Assistant (PA) or Dentist;

   • Individual #2 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.

   • Individual #4 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.
b. clinical recommendations made by registered/licensed clinicians who are either members of the IDT or clinicians who have performed an evaluation such as a video-fluoroscopy;

c. health related recommendations or suggestions from oversight activities such as the Individual Quality Review (IQR) or other DOH review or oversight activities; and

d. recommendations made through a Healthcare Plan (HCP), including a Comprehensive Aspiration Risk Management Plan (CARMP), or another plan.

2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting:

a. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman’s terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation.

b. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation.

c. Providers support the person/guardian to make an informed decision.

d. The decision made by the person/guardian during the meeting is accepted; plans are modified; and the IDT honors this health
decision in every setting.

Chapter 13 Nursing Services:

13.2.5 Electronic Nursing Assessment and Planning Process: The nursing assessment process includes several DDSD mandated tools: the electronic Comprehensive Nursing Assessment Tool (e-CHAT), the Aspiration Risk Screening Tool (ARST) and the Medication Administration Assessment Tool (MAAT). This process includes developing and training Health Care Plans and Medical Emergency Response Plans.

The following hierarchy is based on budgeted services and is used to identify which Provider Agency nurse has primary responsibility for completion of the nursing assessment process and related subsequent planning and training. Additional communication and collaboration for planning specific to CCS or CIE services may be needed.

The hierarchy for Nursing Assessment and Planning responsibilities is:
1. Living Supports: Supported Living, IMLS or Family Living via ANS;
2. Customized Community Supports- Group; and
3. Adult Nursing Services (ANS):
   a. for persons in Community Inclusion with health-related needs; or
   b. if no residential services are budgeted but assessment is desired and health needs may exist.

13.2.6 The Electronic Comprehensive Health Assessment Tool (e-CHAT)

1. The e-CHAT is a nursing assessment. It may not be delegated by a licensed nurse to a non-licensed person.
2. The nurse must see the person face-to-face to complete the nursing assessment. Additional
information may be gathered from members of the IDT and other sources.
3. An e-CHAT is required for persons in FL, SL, IMLS, or CCS-Group. All other DD Waiver recipients may obtain an e-CHAT if needed or desired by adding ANS hours for assessment and consultation to their budget.
4. When completing the e-CHAT, the nurse is required to review and update the electronic record and consider the diagnoses, medications, treatments, and overall status of the person. Discussion with others may be needed to obtain critical information.
5. The nurse is required to complete all the e-CHAT assessment questions and add additional pertinent information in all comment sections.

13.2.7 Aspiration Risk Management Screening Tool (ARST)

13.2.8 Medication Administration Assessment Tool (MAAT):
1. A licensed nurse completes the DDSD Medication Administration Assessment Tool (MAAT) at least two weeks before the annual ISP meeting.
2. After completion of the MAAT, the nurse will present recommendations regarding the level of assistance with medication delivery (AWMD) to the IDT. A copy of the MAAT will be sent to all the team members two weeks before the annual ISP meeting and the original MAAT will be retained in the Provider Agency records.
3. Decisions about medication delivery are made by the IDT to promote a person’s maximum independence and community integration. The IDT will reach consensus regarding which criteria the person meets, as indicated by the results of the MAAT and the
nursing recommendations, and the
decision is documented this in the ISP.

13.2.9 Healthcare Plans (HCP):
1. At the nurse’s discretion, based on prudent
nursing practice, interim HCPs may be
developed to address issues that must be
implemented immediately after admission,
readmission or change of medical condition to
provide safe services prior to completion of the
e-CHAT and formal care planning process. This
includes interim ARM plans for those persons
newly identified at moderate or high risk for
aspiration. All interim plans must be removed if
the plan is no longer needed or when final HCP
including CARMPs are in place to avoid
duplication of plans.
2. In collaboration with the IDT, the agency
nurse is required to create HCPs that address all
the areas identified as required in the most
current e-CHAT summary report which is
indicated by “R” in the HCP column. At the
nurse’s sole discretion, based on prudent
nursing practice, HCPs may be combined where
clinically appropriate. The nurse should use
nursing judgment to determine whether to also
include HCPs for any of the areas indicated by
“C” on the e-CHAT summary report. The nurse
may also create other HCPs plans that the nurse
determines are warranted.

13.2.10 Medical Emergency Response Plan
(MERP):
1. The agency nurse is required to develop a
Medical Emergency Response Plan (MERP) for
all conditions marked with an “R” in the e-CHAT
summary report. The agency nurse should use
her/his clinical judgment and input from the
Interdisciplinary Team (IDT) to determine
whether shown as “C” in the e-CHAT summary
report or other conditions also warrant a MERP.
2. MERPs are required for persons who have one or more conditions or illnesses that present a likely potential to become a life-threatening situation.

Chapter 20: Provider Documentation and Client Records: 20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form.

### Chapter 2: Human Rights:

Civil rights apply to everyone, including all waiver participants, family members, guardians, natural supports, and Provider Agencies. Everyone has a responsibility to make sure those rights are not violated. All Provider Agencies play a role in person-centered planning (PCP) and have an obligation to contribute to the planning process, always focusing on how to best support the person.

### Chapter 3 Safeguards: 3.3.1 HRC Procedural Requirements:

1. An invitation to participate in the HRC meeting of a rights restriction review will be given to the person (regardless of verbal or cognitive ability), his/her guardian, and/or a family member (if desired by the person), and the Behavior Support Consultant (BSC) at least 10 working days prior to the meeting (except for in emergency situations). If the person (and/or the guardian) does not wish to attend, his/her stated preferences may be brought to the meeting by someone whom the person chooses as his/her representative.

2. The Provider Agencies that are seeking to temporarily limit the person’s right(s) (e.g., Living Supports, Community Inclusion, or BSC) are required to support the person’s informed consent regarding the rights restriction, as well as their timely participation in the review.

3. The plan’s author, designated staff (e.g., agency service coordinator) and/or the CM makes a written or oral presentation to the HRC.

4. The results of the HRC review are reported in writing to the person supported, the guardian, the BSC, the mental health or other specialized therapy provider, and the CM within three working days of the meeting.

5. HRC committees are required to meet at least on a quarterly basis.
6. A quorum to conduct an HRC meeting is at least three voting members eligible to vote in each situation and at least one must be a community member at large.

7. HRC members who are directly involved in the services provided to the person must excuse themselves from voting in that situation. Each HRC is required to have a provision for emergency approval of rights restrictions based upon credible threats of harm against self or others that may arise between scheduled HRC meetings (e.g., locking up sharp knives after a serious attempt to injure self or others or a disclosure, with a credible plan, to seriously injure or kill someone). The confidential and HIPAA compliant emergency meeting may be via telephone, video or conference call, or secure email. Procedures may include an initial emergency phone meeting, and a subsequent follow-up emergency meeting in complex and/or ongoing situations.

8. The HRC with primary responsibility for implementation of the rights restriction will record all meeting minutes on an individual basis, i.e., each meeting discussion for an individual will be recorded separately, and minutes of all meetings will be retained at the agency for at least six years from the final date of continuance of the restriction.

3.3.3 HRC and Behavioral Support: The HRC reviews temporary restrictions of rights that are related to medical issues or health and safety considerations such as decreased mobility (e.g., the use of bed rails due to risk of falling during the night while getting out of bed). However, other temporary restrictions may be implemented because of health and safety considerations arising from behavioral issues. Positive Behavioral Supports (PBS) are mandated and used when behavioral support is
needed and desired by the person and/or the IDT. PBS emphasizes the acquisition and maintenance of positive skills (e.g. building healthy relationships) to increase the person’s quality of life understanding that a natural reduction in other challenging behaviors will follow. At times, aversive interventions may be temporarily included as a part of a person’s behavioral support (usually in the BCIP), and therefore, need to be reviewed prior to implementation as well as periodically while the restrictive intervention is in place. PBSPs not containing aversive interventions do not require HRC review or approval. Plans (e.g., ISPs, PBSPs, BCIPs PPMPs, and/or RMPs) that contain any aversive interventions are submitted to the HRC in advance of a meeting, except in emergency situations.

3.3.4 Interventions Requiring HRC Review and Approval: HRCs must review prior to implementation, any plans (e.g. ISPs, PBSPs, BCIPs and/or PPMPs, RMPs), with strategies, including but not limited to:

1. response cost;
2. restitution;
3. emergency physical restraint (EPR);
4. routine use of law enforcement as part of a BCIP;
5. routine use of emergency hospitalization procedures as part of a BCIP;
6. use of point systems;
7. use of intense, highly structured, and specialized treatment strategies, including level systems with response cost or failure to earn components;
8. a 1:1 staff to person ratio for behavioral reasons, or, very rarely, a 2:1 staff to person ratio for behavioral or medical reasons;
9. use of PRN psychotropic medications;
<p>| | |</p>
<table>
<thead>
<tr>

<td>use of a device and/or monitoring system through PST may impact the person’s privacy or other rights; or</td>
</tr>
<tr>
<td>13.</td>
<td>use of any alarms to alert staff to a person’s whereabouts.</td>
</tr>
</tbody>
</table>

**3.4 Emergency Physical Restraint (EPR):**
Every person shall be free from the use of restrictive physical crisis intervention measures that are unnecessary. Provider Agencies who support people who may occasionally need intervention such as Emergency Physical Restraint (EPR) are required to institute procedures to maximize safety.

**3.4.5 Human Rights Committee:** The HRC reviews use of EPR. The BCIP may not be implemented without HRC review and approval whenever EPR or other restrictive measure(s) are included. Provider Agencies with an HRC are required to ensure that the HRCs:

1. participate in training regarding required constitution and oversight activities for HRCs;
2. review any BCIP, that include the use of EPR;
3. occur at least annually, occur in any quarter where EPR is used, and occur whenever any change to the BCIP is considered;
4. maintain HRC minutes approving or disallowing the use of EPR as written in a BCIP; and
5. maintain HRC minutes of meetings reviewing the implementation of the BCIP when EPR is used.

---

Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018

**3.3 Human Rights Committee:** Human Rights Committees (HRC) exist to protect the rights and freedoms of all waiver participants through the review of proposed restrictions to a person’s rights based on a documented health and safety concern. HRCs monitor the implementation of certain time-limited restrictive interventions designed to protect a waiver participant and/or the community from harm. An HRC may also serve other functions as appropriate, such as the review of agency policies on sexuality if desired. HRCs are required for all Living Supports (Supported Living, Family Living, Intensive Medical Living Services), Customized Community Supports (CCS) and Community Integrated Employment (CIE) Provider Agencies.

1. HRC membership must include:
   a. at least one member with a diagnosis of I/DD;
   b. a parent or guardian of a person with I/DD; or
   c. a member from the community at large that is not associated with DD Waiver services.

2. Although not required, members from the health services professions (e.g., a physician or nurse), and those who represent the ethnic and cultural diversity of the community are highly encouraged.

3. Committee members must abide by HIPAA.

4. All committee members will receive training on human rights, HRC requirements, and other pertinent DD Waiver Service Standards prior to their voting participation on the HRC. A committee member trained by the
5. HRCs will appoint an HRC chair. Each committee chair shall be appointed to a two-year term. Each chair may serve only two consecutive two-year terms at a time.

6. While agencies may have an intra-agency HRC, meeting the HRC requirement by being a part of an interagency committee is also highly encouraged.

a. treatment or care of any eligible recipient;
b. services or goods provided to any eligible recipient;
c. amounts paid by MAD on behalf of any eligible recipient; and
d. any records required by MAD for the administration of Medicaid.

21.9 Billable Units: The unit of billing depends on the service type. The unit may be a 15-minute interval, a daily unit, a monthly unit or a dollar amount. The unit of billing is identified in the current DD Waiver Rate Table. Provider Agencies must correctly report service units.

21.9.1 Requirements for Daily Units: For services billed in daily units, Provider Agencies must adhere to the following:

1. A day is considered 24 hours from midnight to midnight.
2. If 12 or fewer hours of service are provided, then one-half unit shall be billed. A whole unit can be billed if more than 12 hours of service is provided during a 24-hour period.
3. The maximum allowable billable units cannot exceed 340 calendar days per ISP year or 170 calendar days per six months.
4. When a person transitions from one Provider Agency to another during the ISP year, a standard formula to calculate the units billed by each Provider Agency must be applied as follows:
   a. The discharging Provider Agency bills the number of calendar days that services were provided multiplied by .93 (93%).
   b. The receiving Provider Agency bills the remaining days up to 340 for the ISP year.

21.9.2 Requirements for Monthly Units: For services billed in monthly units, a Provider Agency must adhere to the following:
1. A month is considered a period of 30 calendar days.
2. At least one hour of face-to-face billable services shall be provided during a calendar month where any portion of a monthly unit is billed.
3. Monthly units can be prorated by a half unit.
4. Agency transfers not occurring at the beginning of the 30-day interval are required to be coordinated in the middle of the 30-day interval so that the discharging and receiving agency receive a half unit.

21.9.3 Requirements for 15-minute and hourly units: For services billed in 15-minute or hourly intervals, Provider Agencies must adhere to the following:
1. When time spent providing the service is not exactly 15 minutes or one hour, Provider Agencies are responsible for reporting time correctly following NMAC 8.302.2.
2. Services that last in their entirety less than eight minutes cannot be billed.

NMAC 8.302.1.17 Effective Date 9-15-08
Record Keeping and Documentation Requirements - A provider must maintain all the records necessary to fully disclose the nature, quality, amount and medical necessity of services furnished to an eligible recipient who is currently receiving or who has received services in the past.
Detail Required in Records - Provider Records must be sufficiently detailed to substantiate the date, time, eligible recipient name, rendering, attending, ordering or prescribing provider; level and quantity of services, length of a session of service billed, diagnosis and medical necessity of any service . . . Treatment plans or other plans of care must be sufficiently detailed to substantiate
the level of need, supervision, and direction and service(s) needed by the eligible recipient.

**Services Billed by Units of Time** -
Services billed on the basis of time units spent with an eligible recipient must be sufficiently detailed to document the actual time spent with the eligible recipient and the services provided during that time unit.

**Records Retention** - A provider who receives payment for treatment, services or goods must retain all medical and business records relating to any of the following for a period of at least six years from the payment date:
(1) treatment or care of any eligible recipient
(2) services or goods provided to any eligible recipient
(3) amounts paid by MAD on behalf of any eligible recipient; and
(4) any records required by MAD for the administration of Medicaid.
Dear Ms. Swanson;

The Division of Health Improvement Quality Management Bureau received and approved the Plan of Correction you submitted. Your Plan of Correction is not closed.

**Your Plan of Correction will be considered for closure when a Verification survey confirms that you have corrected all survey deficiencies and sustained all corrections.**

The Quality Management Bureau will need to conduct a verification survey to ensure previously cited deficiencies have been corrected and that systemic Quality Improvement and Quality Assurance processes have been effective at sustaining corrections.

If the Verification survey determines survey deficiencies have been corrected and corrective measures have effectively maintained compliance with DDW Standards, your Plan of Correction will be considered for closure.

If the Verification survey identifies repeat deficiencies, the Plan of Correction process will continue and your case may be referred to the Internal Review Committee for discussion of possible civil monetary penalties possible monetary fines and/or other sanctions.

Thank you for your cooperation with the Plan of Correction process.

Sincerely,

Amanda Castañeda

Amanda Castañeda
Health Program Manager/Plan of Correction Coordinator
Quality Management Bureau/DHI
Date: December 21, 2018

To: Lisa Swanson, Executive Director
Provider: Southwest Services for The Deaf
Address: 2202 Menaul Blvd. NE, Suite A
State/Zip: Albuquerque, New Mexico 87107
E-mail Address: lisawsd@gmail.com
Region: Metro
Routine Survey: July 9 - 10, 2018
Verification Survey: November 20 – 21, 2018
Service Surveyed: 2012: Customized Community Supports
Survey Type: Verification
Team Leader: Kandis Gomez, AA, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau
Team Members: Lora Norby, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau

Dear Ms. Swanson;

The Division of Health Improvement/Quality Management Bureau has completed a Verification survey of the services identified above. The purpose of the survey was to determine compliance with your Plan of Correction submitted to DHI regarding the Routine Survey on July 9 – 10, 2018.

The Division of Health Improvement, Quality Management Bureau has determined your agency is now in:

**Partial Compliance with Standard Level Tags and Conditions of Participation Level Tags:** This determination is based on noncompliance the following. Your agency was cited with Condition of Participation level deficiencies and Standard level deficiencies (refer to Attachment B for details). You are required to complete and implement a Plan of Correction in the attached QMB Report of Findings:

- Condition of Participation level requirements which affected more than 75% of the survey sample or;
- Standard level requirements which affected less than 75% of the Individuals on the survey sample or;
- 6 or more Condition of Participation Level Deficiencies which are out of compliance.

The following tags are identified as Condition of Participation Level Deficiencies:
- Tag # 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- Tag # 1A31 Client Rights/Human Rights

The following tags are identified as Standard Level Deficiencies:
- Tag # 1A38 Community Inclusion Reporting
- Tag # 1A31.2 Human Rights Committee Composition
However, due to the new/repeat deficiencies your agency will be referred to the Internal Review Committee (IRC). Your agency will also be required to contact your DDSD Regional Office for technical assistance and follow up and complete the Plan of Correction document attached at the end of this report. Please respond to the Plan of Correction Coordinator within 10 business days of receipt of this letter.

**Plan of Correction:**
The attached Report of Findings identifies the new/repeat Standard Level deficiencies found during your agency’s verification compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 10 business days from the receipt of this letter. The Plan of Correction must include the following:
1. Evidence your agency has contacted your DDSD Regional Office for technical assistance;
2. A Plan of Correction detailing Quality Assurance/Quality Improvement processes to prevent your agency from receiving deficiencies in the future. Please use the format provided at the end of this report;
3. Documentation verifying that newly cited deficiencies have been corrected.

**Submission of your Plan of Correction:**
Please submit your agency’s Plan of Correction and documentation verifying correction of survey deficiencies within 10 business days of receipt of this letter to the parties below:

1. Quality Management Bureau, Attention: Plan of Correction Coordinator
   1170 North Solano Suite D Las Cruces, New Mexico 88001

2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

Failure to submit your POC within the allotted 10 business days may result in the imposition of a $200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

Please call the Plan of Correction Coordinator Amanda Castaneda at 575-373-5716 if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

_Kandis Gomez, AA_

QMB Determination of Compliance Process

The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency’s operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency’s overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

Conditions of Participation (CoPs)

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called non-negotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:

**Service Domain: Service Plan: ISP Implementation** - Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

Potential Condition of Participation Level Tags, if compliance is below 85%:
- 1A08.3 – Administrative Case File: Individual Service Plan / ISP Components
- 1A32 – Administrative Case File: Individual Service Plan Implementation
- LS14 – Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
- IS14 – CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

**Service Domain: Qualified Providers** - The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

Potential Condition of Participation Level Tags, if compliance is below 85%:
- 1A20 - Direct Support Personnel Training
• 1A22 - Agency Personnel Competency
• 1A37 – Individual Specific Training

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):
• 1A25.1 – Caregiver Criminal History Screening
• 1A26.1 – Consolidated On-line Registry Employee Abuse Registry

Service Domain: Health, Welfare and Safety - The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

Potential Condition of Participation Level Tags, if compliance is below 85%:
• 1A08.2 – Administrative Case File: Healthcare Requirements & Follow-up
• 1A09 – Medication Delivery Routine Medication Administration
• 1A09.1 – Medication Delivery PRN Medication Administration
• 1A15.2 – Administrative Case File: Healthcare Documentation (Therap and Required Plans)

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):
• 1A05 – General Requirements / Agency Policy and Procedure Requirements
• 1A07 – Social Security Income (SSI) Payments
• 1A09.2 – Medication Delivery Nurse Approval for PRN Medication
• 1A15 – Healthcare Documentation - Nurse Availability
• 1A31 – Client Rights/Human Rights
• LS25.1 – Residential Reqts. (Physical Environment - Supported Living / Family Living / Intensive Medical Living)
Attachment D

QMB Determinations of Compliance

Compliance:

The QMB determination of *Compliance* indicates that a provider has either no deficiencies found during a survey or has no deficiencies at the Condition of Participation Level. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals’ health and safety. To qualify for a determination of *Compliance*, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

Partial-Compliance with Standard Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags* indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals’ health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

3. Your Report of Findings includes 16 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected in any tag.

4. Your Report of Findings includes 17 or more Standard Level Tags with between 50% to 74% of the survey sample affected in any tag.

Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags* indicates that a provider is out of compliance with one to five (1 – 5) Condition of Participation Level Tags. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals’ health and safety.

Non-Compliance:

The QMB determination of *Non-Compliance* indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals’ health and safety. There are three ways an agency can receive a determination of Non-Compliance:

3. Your Report of Findings includes 17 or more Standard Level Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any tag.

4. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

**Customized Community Supports Semi-Annual Reports**

**Nursing Semi-Annual / Quarterly Reports:**

- Individual #4 - None found for 4/2018 - 10/2018. *(Term of ISP 4/15/2018 – 4/14/2019.)*
of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.

DD Waiver Provider Agencies are required to adhere to the following:

8. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.

9. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable.

10. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.

11. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.

12. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

13. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.

14. All records pertaining to JCMs must be retained permanently and must be made available to DDSD.
upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

Chapter 19: Provider Reporting Requirements:
19.5 Semi-Annual Reporting: The semi-annual report provides status updates to life circumstances, health, and progress toward ISP goals and/or goals related to professional and clinical services provided through the DD Waiver. This report is submitted to the CM for review and may guide actions taken by the person’s IDT if necessary. Semi-annual reports may be requested by DDSD for QA activities. Semi-annual reports are required as follows:
6. DD Waiver Provider Agencies, except AT, EMSP, Supplemental Dental, PRSC, SSE and Crisis Supports, must complete semi-annual reports.
7. A Respite Provider Agency must submit a semi-annual progress report to the CM that describes progress on the Action Plan(s) and Desired Outcome(s) when Respite is the only service included in the ISP other than Case Management, for an adult age 21 or older.
8. The first semi-annual report will cover the time from the start of the person’s ISP year until the end of the subsequent six-month period (180 calendar days) and is due ten calendar days after the period ends (190 calendar days).
9. The second semi-annual report is integrated into the annual report or professional assessment/annual re-evaluation when applicable and is due 14 calendar days prior to the annual ISP meeting.
10. Semi-annual reports must contain at a minimum written documentation of:
   a. the name of the person and date on each page;
   b. the timeframe that the report covers;
   c. timely completion of relevant activities from ISP Action Plans or clinical service goals during timeframe the report is covering;
d. a description of progress towards Desired Outcomes in the ISP related to the service provided;
e. a description of progress toward any service specific or treatment goals when applicable (e.g. health related goals for nursing);
f. significant changes in routine or staffing if applicable;
g. unusual or significant life events, including significant change of health or behavioral health condition;
h. the signature of the agency staff responsible for preparing the report; and
i. any other required elements by service type that are detailed in these standards.

CHAPTER 6 (CCS) 3. Agency Requirements:
I. Reporting Requirements: Progress Reports:
Customized Community Supports providers must submit written status reports to the individual’s Case Manager and other IDT members. When reports are developed in any language other than English, it is the responsibility of the provider to translate the reports into English. These reports are due at two points in time: a mid-cycle report due on day 190 of the ISP cycle and a second summary report due two weeks prior to the annual ISP meeting that covers all progress since the beginning of the ISP cycle up to that point. These reports must contain the following written documentation:

2. Semi-annual progress reports one hundred ninety (190) days following the date of the annual ISP, and 14 days prior to the annual IDT meeting:
   a. Identification of and implementation of a Meaningful Day definition for each person
served;
b. Documentation for each date of service delivery summarizing the following:

   iii. Choice based options offered throughout the day; and

   iv. Progress toward outcomes using age appropriate strategies specified in each individual’s action steps in the ISP, and associated support plans/WDSI.

c. Record of personally meaningful community inclusion activities;
d. Written updates, to the ISP Work/Learn Action Plan annually or as necessary due to change in work outcomes. These updates do not require an IDT meeting unless changes requiring team input need to be made; and

e. Data related to the requirements of the Performance Contract to DDSD quarterly.
**Standard of Care**

**Service Domain: Health and Welfare** – The state, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

</tbody>
</table>

2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting:

   c. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman’s terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation.

   d. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation.

   c. Providers support the person/guardian to make an informed decision.

   d. The decision made by the person/guardian during the meeting is accepted; plans are modified; and the IDT honors this health decision in every setting.

**Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements:** All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file,
the type of service being provided, and the information necessary.

DD Waiver Provider Agencies are required to adhere to the following:

8. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.

9. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable.

10. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.

11. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.

12. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

13. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.

14. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.
20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. The Physician Consultation form contains a list of all current medications.

Chapter 13 Nursing Services: 13.2.3 General Requirements:
2. Each person has a licensed primary care practitioner and receives an annual physical examination and specialty medical/dental care as needed. Nurses communicate with these providers to share current health information.

Chapter 6 (CCS) 3. Agency Requirements: G. Consumer Records Policy: All Provider Agencies shall maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.
**Tag # 1A31 Client Rights/Human Rights**

**NMAC 7.26.3.11 RESTRICTIONS OR LIMITATION OF CLIENT’S RIGHTS:**

A. A service provider shall not restrict or limit a client's rights except:
   1. where the restriction or limitation is allowed in an emergency and is necessary to prevent imminent risk of physical harm to the client or another person; or
   2. where the interdisciplinary team has determined that the client's limited capacity to exercise the right threatens his or her physical safety; or
   3. as provided for in Section 10.1.14 [now Subsection N of 7.26.3.10 NMAC].

B. Any emergency intervention to prevent physical harm shall be reasonable to prevent harm, shall be the least restrictive intervention necessary to meet the emergency, shall be allowed no longer than necessary and shall be subject to interdisciplinary team (IDT) review. The IDT upon completion of its review may refer its findings to the office of quality assurance. The emergency intervention may be subject to review by the service provider’s behavioral support committee or human rights committee in accordance with the behavioral support policies or other department regulation or policy.

C. The service provider may adopt reasonable program policies of general applicability to clients served by that service provider that do not violate client rights. [09/12/94; 01/15/97; Recompiled 10/31/01]

**Repeat Finding:**

After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur.

Based on record review, the Agency did not ensure the rights of Individuals was not restricted or limited for 1 of 4 Individuals.

A review of Agency Individual files indicated Human Rights Committee Approval was required for restrictions.

No documentation was found regarding Human Rights Approval for the following:

- Psychotropic Medications to control behaviors. No evidence found of Human Rights Committee approval. (Individual #4)
Chapter 2: Human Rights: Civil rights apply to everyone, including all waiver participants, family members, guardians, natural supports, and Provider Agencies. Everyone has a responsibility to make sure those rights are not violated. All Provider Agencies play a role in person-centered planning (PCP) and have an obligation to contribute to the planning process, always focusing on how to best support the person.

Chapter 3 Safeguards: 3.3.1 HRC Procedural Requirements:

9. An invitation to participate in the HRC meeting of a rights restriction review will be given to the person (regardless of verbal or cognitive ability), his/her guardian, and/or a family member (if desired by the person), and the Behavior Support Consultant (BSC) at least 10 working days prior to the meeting (except for in emergency situations). If the person (and/or the guardian) does not wish to attend, his/her stated preferences may be brought to the meeting by someone whom the person chooses as his/her representative.

10. The Provider Agencies that are seeking to temporarily limit the person’s right(s) (e.g., Living Supports, Community Inclusion, or BSC) are required to support the person’s informed consent regarding the rights restriction, as well as their timely participation in the review.

11. The plan’s author, designated staff (e.g., agency service coordinator) and/or the CM makes a written or oral presentation to the HRC.

12. The results of the HRC review are reported in writing to the person supported, the guardian, the BSC, the mental health or other specialized therapy provider, and the CM within three working days of the meeting.

13. HRC committees are required to meet at least on a quarterly basis.

14. A quorum to conduct an HRC meeting is at least
three voting members eligible to vote in each situation and at least one must be a community member at large.

15. HRC members who are directly involved in the services provided to the person must excuse themselves from voting in that situation. Each HRC is required to have a provision for emergency approval of rights restrictions based upon credible threats of harm against self or others that may arise between scheduled HRC meetings (e.g., locking up sharp knives after a serious attempt to injure self or others or a disclosure, with a credible plan, to seriously injure or kill someone). The confidential and HIPAA compliant emergency meeting may be via telephone, video or conference call, or secure email. Procedures may include an initial emergency phone meeting, and a subsequent follow-up emergency meeting in complex and/or ongoing situations.

16. The HRC with primary responsibility for implementation of the rights restriction will record all meeting minutes on an individual basis, i.e., each meeting discussion for an individual will be recorded separately, and minutes of all meetings will be retained at the agency for at least six years from the final date of continuance of the restriction.

3.3.3 HRC and Behavioral Support: The HRC reviews temporary restrictions of rights that are related to medical issues or health and safety considerations such as decreased mobility (e.g., the use of bed rails due to risk of falling during the night while getting out of bed). However, other temporary restrictions may be implemented because of health and safety considerations arising from behavioral issues. Positive Behavioral Supports (PBS) are mandated and used when behavioral support is needed and desired by the person and/or the IDT. PBS emphasizes the acquisition and maintenance of
positive skills (e.g. building healthy relationships) to increase the person’s quality of life understanding that a natural reduction in other challenging behaviors will follow. At times, aversive interventions may be temporarily included as a part of a person’s behavioral support (usually in the BCIP), and therefore, need to be reviewed prior to implementation as well as periodically while the restrictive intervention is in place. PBSPs not containing aversive interventions do not require HRC review or approval.

Plans (e.g., ISPs, PBSPs, BCIPs PPMPs, and/or RMPs) that contain any aversive interventions are submitted to the HRC in advance of a meeting, except in emergency situations.

3.3.4 Interventions Requiring HRC Review and Approval: HRCs must review prior to implementation, any plans (e.g. ISPs, PBSPs, BCIPs and/or PPMPs, RMPs), with strategies, including but not limited to:

14. response cost;
15. restitution;
16. emergency physical restraint (EPR);
17. routine use of law enforcement as part of a BCIP;
18. routine use of emergency hospitalization procedures as part of a BCIP;
19. use of point systems;
20. use of intense, highly structured, and specialized treatment strategies, including level systems with response cost or failure to earn components;
21. a 1:1 staff to person ratio for behavioral reasons, or, very rarely, a 2:1 staff to person ratio for behavioral or medical reasons;
22. use of PRN psychotropic medications;
23. use of protective devices for behavioral purposes (e.g., helmets for head banging, Posey gloves for biting hand);
24. use of bed rails;  
25. use of a device and/or monitoring system through PST may impact the person’s privacy or other rights; or  
26. use of any alarms to alert staff to a person’s whereabouts.

**3.4 Emergency Physical Restraint (EPR):** Every person shall be free from the use of restrictive physical crisis intervention measures that are unnecessary. Provider Agencies who support people who may occasionally need intervention such as Emergency Physical Restraint (EPR) are required to institute procedures to maximize safety.

**3.4.5 Human Rights Committee:** The HRC reviews use of EPR. The BCIP may not be implemented without HRC review and approval whenever EPR or other restrictive measure(s) are included. Provider Agencies with an HRC are required to ensure that the HRCs:

6. participate in training regarding required constitution and oversight activities for HRCs;  
7. review any BCIP that include the use of EPR;  
8. occur at least annually, occur in any quarter where EPR is used, and occur whenever any change to the BCIP is considered;  
9. maintain HRC minutes approving or disallowing the use of EPR as written in a BCIP; and  
10. maintain HRC minutes of meetings reviewing the implementation of the BCIP when EPR is used.

Date: November 25, 2019

To: Lisa Swanson, Executive Director
Provider: Southwest Services for The Deaf
Address: 2202 Menaul Blvd. NE, Suite A
State/Zip: Albuquerque, New Mexico 87107

E-mail Address: lisaswd@gmail.com
Region: Metro
Routine Survey: July 9 - 10, 2018
Verification Survey: November 20 – 21, 2018

Service Surveyed: 2012: Customized Community Supports

Survey Type: Verification

Dear Ms. Swanson;

The Division of Health Improvement/Quality Management Bureau has received, reviewed and approved the supporting documents you submitted for your Plan of Correction. The documents you provided verified that all previously cited survey Deficiencies have been corrected.

The Plan of Correction process is now complete.

Please note your agency has an open case with the Internal Review Committee – IRC Case 2K19.003 pending outcome of the Fair Hearing.

Furthermore, your agency is now determined to be in Compliance with all Conditions of Participation.

To maintain ongoing compliance with standards and regulations, continue to use the Quality Assurance (self-auditing) processes you described in your Plan of Correction.

Consistent use of these Quality Assurance processes will enable you to identify and promptly respond to problems, enhance your service delivery, and result in fewer deficiencies cited in future QMB surveys.

Thank you for your cooperation with the Plan of Correction process, for striving to come into compliance with standards and regulations, and for helping to provide the health, safety and personal growth of the people you serve.
Sincerely,

Amanda Castañeda

Amanda Castañeda
Plan of Correction Coordinator
Quality Management Bureau/DHI
